NCA CASI/AdvancED is the largest accreditation organization in the United States, covering 30 states and 65 countries. As part of the accreditation process, NCA CASI/AdvancED conducts Quality Assurance Review (QAR) visits to DoDEA schools in February and April of each year on a rotating schedule that ensures that each school is evaluated within a 5-year cycle. The visits are two days in length in order to gather data, information, and evidence to accomplish the following:

- Evaluate adherence to the AdvancED standards;
- Provide high quality feedback in the form of commendations and recommendations; and
- Determine an accreditation status recommendation.

The Quality Assurance Review team's interview process includes students and parents/guardians. The purpose of the interview session is to help the Quality Assurance Review team gain a deeper understanding of the school improvement process. The review team uses the information to review how well each school is progressing, provide commendations on areas in which each school is excelling, and recommendations that will help each school continuously improve. The review team also uses the information gathered to make an accreditation status recommendation at the end of the visit.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: "Defense Security Service Industrial Security Review Data" and "Defense Security Service Industrial Security Facility Clearance Survey

Data," OMB Control Number 0704-0427.

Needs and Uses: The information collection requirement is necessary to assist in determining whether a contractor is eligible to establish its facility security clearance and/or retain its participation in the National Industrial Security Program (NISP). It is also the basis for verifying whether contractors are appropriately implementing NISP security requirements. These requirements are necessary in order to preserve and maintain the security of the United States through establishing standards to prevent the improper disclosure of classified information.

In accordance with Department of Defense (DoD), 5220.22-R, "Industrial Security Regulation," DSS is required to maintain a record of the results of surveys and security reviews. Documentation for each survey and/or security review will be compiled addressing areas applicable to the contractor's security program. Portions of the data collected will be stored in databases. All data collected will be handled and marked "For Official Use Only."

DSS is the office of record for the maintenance of information pertaining to contractor facility clearance records

and industrial security information regarding cleared contractors under its cognizance. To the extent possible, information required as part of the survey or security review is obtained as a result of observation by the representative of the Cognizant Security Agency or its designated Cognizant Security Office. Some of the information may be obtained based on conferences with Key Management Personnel and/or other employees of the company. The information is used to respond to all inquiries regarding the facility clearance status and classified information storage capability of cleared contractors. It is also used to assess and/or advise Government Contracting Activities regarding any particular contractor's continued ability to protect classified information.
