

FOR FURTHER INFORMATION CONTACT:

Brian Smith or Brandon Custard, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1766 or (202) 482-1832, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On February 2, 2015, the Department published in the **Federal Register** a notice of “Opportunity to Request Administrative Review” of the antidumping duty order on LRW from Mexico for the POR.¹

On February 20, 2015, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), Electrolux Home Products Corp., N.V. and Electrolux Home Products de Mexico, S.A. de C.V. (collectively, Electrolux) requested a review of Electrolux’s sales during the POR.²

On February 26, 2015, Whirlpool Corporation, the petitioner, requested that the Department conduct an administrative review of the sales of Samsung Electronics Mexico S.A. de C.V (Samsung) and Electrolux during the POR.³ The Department did not receive a request from Samsung.

On April 3, 2015, the Department published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on LRW from Mexico with respect to the above-named companies.⁴

On May 29, 2015, the petitioner timely withdrew its request for a review of Samsung.⁵

Partial Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the parties that requested a review withdraw the request within 90 days of the date of publication of notice of initiation of the requested review. The petitioner’s withdrawal request was filed before the 90-day deadline and Samsung did not request a review of its sales during the POR. Therefore, in

² See February 20, 2015, letter from Electrolux regarding request for administrative review.

³ See February 26, 2015, letter from the petitioner regarding request for administrative review.

⁴ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 80 FR 18202 (April 3, 2015).

⁵ See May 29, 2015, letter from the petitioner regarding withdrawal of request for review.

response to the petitioner’s withdrawal of request for review of Samsung, and pursuant to 19 CFR 351.213(d)(1), we are rescinding this review with respect to Samsung. The instant review will continue with respect to Electrolux.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For Samsung, the company for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 41 days after the date of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement may result in the presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 751 of the Act and 19 CFR 351.213(d)(4).

Dated: October 7, 2015.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Certain Corrosion-Resistant Steel Products From India, Italy, the People’s Republic of China, the Republic of Korea, and Taiwan: Postponement of Preliminary Determinations of Antidumping Duty Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* October 14, 2015.

FOR FURTHER INFORMATION CONTACT:

Alexis Polovina at (202) 482-3927 (India); Julia Hancock at (202) 482-1394 (Italy); Nancy Decker at (202) 482-0196 (People’s Republic of China (PRC)); Elfi Blum-Page at (202) 482-0197 (the Republic of Korea (Korea)); and Andrew Medley at (202) 482-4987 (Taiwan), AD/CVD Operations, Enforcement and Compliance, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:**Background**

On June 23, 2015, the Department of Commerce (the Department) initiated antidumping duty (AD) investigations of imports of certain corrosion-resistant steel products (corrosion-resistant steel) from India, Italy, the PRC, Korea, and Taiwan.¹ The notice of initiation stated that, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(b)(1), we would issue our preliminary determinations no later than 140 days after the date of initiation, unless postponed. Currently, the preliminary determinations in these investigations are due no later than November 10, 2015.

Postponement of Preliminary Determinations

Sections 733(c)(1)(B)(i) and (ii) of the Act permit the Department to postpone the time limit for the preliminary determination if it concludes that the parties concerned are cooperating and determines that the case is extraordinarily complicated by reason of the number and complexity of the transactions to be investigated or adjustments to be considered, the

¹ See *Certain Corrosion-Resistant Steel Products From Italy, India, the People’s Republic of China, the Republic of Korea, and Taiwan: Initiation of Less-Than-Fair-Value Investigations*, 80 FR 37228 (June 30, 2015).

novelty of the issues presented, or the number of firms whose activities must be investigated, and additional time is necessary to make the preliminary determination. Under this section of the Act, the Department may postpone the preliminary determination until no later than 190 days after the date on which the Department initiated the investigation.

The Department determines that the parties involved in these corrosion-resistant steel AD investigations are cooperating, and that the investigations are extraordinarily complicated. Additional time is required to analyze the questionnaire responses and issue appropriate requests for clarification and additional information.

Therefore, in accordance with section 733(c)(1)(B) of the Act and 19 CFR 351.205(f)(1), the Department is postponing the time period for the preliminary determinations of these investigations by 41 days, to December 21, 2015. Pursuant to section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: October 7, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE235

Endangered Species; Take of Abalone

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt for request for one scientific research permit and one scientific research and enhancement permit.

SUMMARY: Notice is hereby given that NMFS has received permit application requests for one new scientific research permit and one new scientific research and enhancement permit. The proposed research is intended to increase knowledge of species listed under the Endangered Species Act (ESA) and to help guide management, conservation, and recovery efforts. The applications

may be viewed online at: https://apps.nmfs.noaa.gov/preview/preview_open_for_comment.cfm.

DATES: Comments or requests for a public hearing on the applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on November 13, 2015.

ADDRESSES: Written comments on the applications should be submitted to the Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404. Comments may also be submitted via fax to 707-578-3435 or by email to nmfs.swr.apps@noaa.gov (include the permit number in the subject line of the fax or email).

FOR FURTHER INFORMATION CONTACT: Jeff Abrams, Santa Rosa, CA (ph.: 707-575-6080), Fax: 707-578-3435, email: Jeff.Abrams@noaa.gov. Permit application instructions are available from the address above, or online at <https://apps.nmfs.noaa.gov>.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Endangered black abalone (*Haliotis cracherodii*).

Authority

Scientific research and enhancement permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR parts 222-227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

Permit 18761

Dr. Peter Raimondi, professor and chair of the University of California, Santa Cruz, Department of Ecology and Evolutionary Biology, has requested a five year research permit to monitor and research the status and trends of endangered black abalone at sites

throughout California for a period of five years. Monitoring would consist primarily of non-lethal, non-capture take to measure, mark, and count abalone. At a few experimental sites, habitat restoration efforts would be completed to restore crevice communities to their pre-abalone decline state, and recruitment modules would be used to better estimate recruitment levels. Comparisons would be made between abalone counts in "restored" crevices versus control crevices with and without recruitment modules to assess whether habitat restoration and recruitment module presence enhance recovery efforts. Some juvenile black abalone would be transported in recruitment modules from locations that are relatively free of withering syndrome in the north (Monterey County), to a withering syndrome-impacted mainland site further south (Santa Barbara County). Because the field biologists in this project would be likely to encounter dead or moribund black abalone, researchers would be permitted to collect dead or obviously dying individuals to be used for pathology and histology samples. These samples would be important in early identification of disease or toxin outbreaks. The information resulting from the research outlined above would be used to follow recovery in wild abalone, track disease spread and population decline, and better understand habitat preferences that may aid in facilitating recovery.

Permit 19571

The NMFS Southwest Fisheries Science Center (SWFSC), La Jolla, California has requested a five year research and enhancement permit for the captive maintenance, breeding, lab experiments, epipodial tissue sampling, observation, and transport of endangered black abalone. The main purpose of this research would be to develop successful techniques for consistent production of high quality juvenile black abalone to support future outplanting efforts. Research would examine: 1) Spawning conditioning related to various diet and temperature regimes, 2) cues for spawning including thermal shock and hydrogen peroxide treatments, 3) veliger settlement, 4) and growth and survival. Eight of the black abalone proposed to be used for this research were previously transferred from the Space and Naval Warfare Systems Center Pacific Abalone Farm to the SWFSC Aquarium Culture Facility in La Jolla, California. These pre-listed abalone have been in captivity since before black abalone were listed as
