

the lowest adjustment for any party in the companion CVD investigation.¹⁰

Pursuant to 777A(f) of the Act, we are also adjusting preliminary cash deposit rates for estimated domestic subsidy pass-through, where appropriate. We will adjust the Xingyu Group's by 0.91 percent, but we are not adjusting the rate for the FEIS Group because it failed to justify such an adjustment. We are adjusting the rates for each of the other separate rate companies by 1.83 percent. Finally, we are not adjusting the PRC-wide entity's rate for estimated domestic subsidy pass-through.¹¹

Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination by the Department, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination by the Department, a request for such postponement is made by the petitioner. 19 CFR 351.210(e)(2) requires that requests by respondents for postponement of a final antidumping determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

In a joint letter dated September 30, 2015, Xingyu, Xingye, Dragon, Hainan Yisheng Petrochemical Co., Ltd., Zhejiang Wankai New Materials Co., Ltd., and Shanghai Hengyi Polyester Fiber Co., Ltd. requested that, in the event of an affirmative preliminary determination in this investigation, the Department postpone its final determination by 60 days (*i.e.*, to 135 days after publication of the preliminary determination) pursuant to section 735(a)(2)(A) and 19 CFR 351.210(b)(2)(ii), and agreed to extend the application of the provisional measures prescribed under section 733(d) of the Act and 19 CFR 351.210(e)(2), from a four-month period to a period not to exceed six months.¹² In a letter dated October 2, 2015, FEIS requested the same.¹³

In accordance with section 735(a)(2)(A) of the Act and 19 CFR

351.210(b)(2)(ii) and (e)(2), because (1) our preliminary determination is affirmative; (2) the requesting exporters account for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, we are postponing the final determination and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, we will make our final determination no later than 135 days after the date of publication of this preliminary determination, pursuant to section 735(a)(2) of the Act.¹⁴

International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, we will notify the ITC of our affirmative preliminary determination of sales at LTFV. Because the preliminary determination in this proceeding is affirmative, section 735(b)(2) of the Act requires that the ITC make its final determination whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of PET resin from the PRC before the later of 120 days after the date of this preliminary determination or 45 days after our final determination. Because we are postponing the deadline for our final determination to 135 days from the date of publication of this preliminary determination, as discussed above, the ITC will make its final determination no later than 45 days after our final determination.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: October 6, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.
