The OCC is requesting comment on a revision to the following information collection:

Title: Annual Company-Run Stress Test Reporting Template and Documentation for Covered Institutions with Total Consolidated Assets of \$10 Billion to \$50 Billion under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

OMB Control No.: 1557-0311.

Description: Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act¹ (Dodd-Frank Act) requires certain financial companies, including national banks and Federal savings associations, to conduct annual stress tests² and requires the primary financial regulatory agency³ of those financial companies to issue regulations implementing the stress test requirements.⁴ A national bank or Federal savings association is a "covered institution," and therefore subject to the stress test requirements if its total consolidated assets exceed \$10 billion. Under section 165(i)(2), a covered institution is required to submit to the Board of Governors of the Federal Reserve System (Board) and to its primary financial regulatory agency a report at such time, in such form, and containing such information as the primary financial regulatory agency may require.⁵ On October 9, 2012, the OCC published in the **Federal Register** a final rule implementing the section 165(i)(2) annual stress test requirements.⁶ On October 22, 2013 the OCC published in the **Federal Register** a notice describing the reports and information required under section 165(i)(2) for covered institutions with average total consolidated assets between \$10 to \$50 billion.⁷

The OCC proposes the following revisions and clarifications for the OCC DFAST 10-50 report, effective for the 2016 stress test cycle: Changing the dates on the reporting templates to match the revised "as of" date from September 30 to December 31, changing the reporting submission due date from March 31 to July 31, and modifying the reporting instructions to clarify a number of items.⁸ Additionally, the line item "Qualifying subordinated debt and redeemable preferred stock" would be eliminated in the capital section of the

balance sheet, and the report form would include updated references to specific reporting items on the Reports of Condition and Income (Call Report).

The OCC has worked closely with the Board and the Federal Deposit Insurance Corporation to make the agencies' respective rules implementing the annual stress testing requirements under the Dodd-Frank Act consistent and comparable by requiring similar standards for scope of application, scenarios, data collection and reporting forms. The OCC also has worked to minimize any potential duplication of effort related to the annual stress test requirements.

Type of Review: Revision to an existing collection.

Affected Public: Businesses or other for-profit.

Burden Estimates:

Estimated Number of Respondents: 33.

Estimated Total Annual Burden: 15,477 hours.

The burden for each \$10 to \$50 billion covered institution that completes the revised results template was estimated to be 445 hours for a total of 14,685 hours. This burden included 20 hours to input these data and 425 hours for work related to modeling efforts. The estimated revised burden for each \$10 to \$50 billion covered institution that completes the annual DFAST Scenarios Variables Template was estimated to be 24 additional hours for a total of 792 hours.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and,

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: October 14, 2015.

Director, Legislative and Regulatory Activities Division.
