DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Revised Restricted Service List for a Programmatic Agreement for Managing Properties Included in or Eligible for Inclusion in the National Register of Historic Places

Beverly Lock and Dam Water Power	Project No. 13404-002
Devola Lock and Dam Water Power	Project No. 13405-002
Malta/McConnelsville Lock and Dam Water Power	Project No. 13406-002
Lowell Lock and Dam Water Power	Project No. 13407-002
Philo Lock and Dam Water Power	Project No. 13408-002
Rokeby Lock and Dam Water Power	Project No. 13411-002

On September 10, 2015, the Federal Energy Regulatory Commission (Commission) issued notice of a proposed restricted service list for the preparation of a programmatic agreement for managing properties included in, or eligible for inclusion in, the National Register of Historic Places at each of the following proposed projects: (1) Beverly Lock & Dam Water Power Project No. 13404; (2) Devola Lock & Dam Water Power Project No. 13405; (3) Malta Lock & Dam Water Power Project No. 13406; (4) Lowell Lock & Dam Water Power Project No. 13407; (5) Philo Lock & Dam Water Power Project No. 13408; (6) and Rokeby Lock & Dam Water Power Project No. 13411. Rule 2010(d)(1) of the Commission's Rules of Practice and Procedure, 18 CFR 385.2010(d)(1) (2014), provides for the establishment of such a list for a particular phase or issue in a proceeding to eliminate unnecessary expense or improve administrative efficiency. Under Rule 385.2010(d)(4), persons on the official service list are to be given notice of any proposal to establish a restricted service list and an opportunity to show why they should also be included on the restricted service list or why a restricted service list should not be established.

On October 2, 2015, Robin Dushane, Tribal Historic Preservation Officer for the Eastern Shawnee, requested that the Eastern Shawnee Tribe be added to the restricted service list for the above referenced projects.

On October 8, 2015, Jay Toth, Tribal archaeologist for the Seneca Nation, requested that the Seneca Nation be added to the restricted service list and be included as a consulting party in the section 106 of the National Historic Preservation Act consultation process so that it may stay apprised and provide project input.

Under Rule 385.2010(d)(2), any restricted service list will contain the names of each person on the official

service list, or the person's representative, who, in the judgment of the decisional authority establishing the list, is an active participant with respect to the phase or issue in the proceeding for which the list is established. The Eastern Shawnee Tribe and the Seneca Nation have identified an interest in issues relating to the management of historic properties at the Beverly Lock and Dam Water Power Project, Devola Lock and Dam Water Power Project, Malta/McConnelsville Lock and Dam Water Power Project, Lowell Lock and Dam Water Power Project, Philo Lock and Dam Water Power Project, and Rokeby Lock and Dam Water Power Project. Therefore, they and their representatives will be added to the restrictive service list.

Accordingly, the restricted service list issued on September 10, 2015, for Projects Nos. 13404, 13405, 13406, 13407, 13408, and 13411 is revised to add the following persons:

Robin Dushane or representative, Historic Preservation Officer, Eastern Shawnee Tribe, 12705 S. 705 Rd., Wyandotte, OK 74370.

Jay Toth, or representative, Tribal Archaeologist, Seneca Nation, 90 Ohiyo Way, Salamanca, NY 14779.

In addition, the zip code for the following address from the restricted service list issued on September 10, 2015 is corrected as follows:

John Eddins or Representative, Advisory Council on Historic Preservation, 401 F Street NW., Suite 803, Washington, DC 20001-2637.

Dated: October 13, 2015.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP15-560-000; PF15-13-000]

Cameron LNG, LLC; Notice of Application

Take notice that on September 28, 2015, Cameron LNG, LLC (Cameron LNG) filed an application in Docket No. CP15-560-000 pursuant to section 3(a) of the Natural Gas Act (NGA), and Parts 153 and 380 of the Commission's regulations, for authority to site, construct, and operate facilities to provide additional natural gas processing, storage, and liquefaction capability at the site of the existing Cameron LNG liquefied natural gas terminal located in Cameron and Calcasieu Parishes, Louisiana. The expansion project would increase the Cameron LNG terminal's maximum natural gas liquefaction and export capabilities from 14.95 to 24.92 million tonnes per annum (MPTA), all as more fully set forth in the application, which is on file with the Commission and open to public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TYY, (202) 502-8659.

Any questions regarding this application should be directed to Blair Woodward, General Counsel, Cameron LNG, LLC, 2925 Briarpark Drive, Suite 1000, Houston, Texas 77042, or by calling (832) 783-5582 (telephone), or email bwoodward@cameronlng.com.

On March 2, 2015, the Commission staff granted Cameron LNG's request to use the pre-filing process and assigned Docket No. PF15-13-000 to staff

activities involving the project. Now, as of the filing of this application on September 28, 2015, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP15-560-000 as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's regulations, 18 CFR 157.9, within 90 days of this Notice, the Commission's staff will either complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission's staff issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to reach a final decision on a request for federal authorization within 90 days of the date of issuance of the Commission staff's EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be

taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: November 3, 2015.

Dated: October 13, 2015.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2004-0019; FRL-OW-2015-9935-94-OW]

Reopening of Request for Scientific Views on the Draft Aquatic Life Ambient Water Quality Criterion for Selenium—Freshwater 2015

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; reopening of comment period.

SUMMARY: The Environmental Protection Agency (EPA) is reopening the comment period for the Agency's draft recommended aquatic life water quality chronic criterion for selenium in freshwater. The draft criterion was announced in a July 27, 2015 notice entitled "Request for Scientific Views: Draft Recommended Aquatic Life Ambient Water Quality Chronic Criterion for Selenium—Freshwater 2015." In response to stakeholder request, EPA is reopening the comment period and will accept scientific views until October 30, 2015.

DATES: Comments must be received on or before October 30, 2015. Scientific views postmarked after this date may not receive the same consideration. The previous public comment period ended on October 10, 2015.

ADDRESSES: Written comments on the notice may be submitted to the EPA electronically, by mail, by facsimile or through hand delivery/courier. Please refer to the proposal (80 FR 44350-44354) for the addresses and detailed instructions.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the EPA-HQ-OW-2004-0019 Docket, EPA/DC, William Jefferson Clinton Building West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the EPA Water Docket is (202) 566-2426.

FOR FURTHER INFORMATION CONTACT: Kathryn Gallagher at U.S. EPA, Office of Water, Health and Ecological Criteria Division (4304T), 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone: (202) 564-1398; or email: gallagher.kathryn@epa.gov.

SUPPLEMENTARY INFORMATION: On July 27, 2015, EPA announced the availability of the draft recommended aquatic life water quality criterion for selenium in a previous notice entitled "Request for Scientific Views: Draft Recommended Aquatic Life Ambient Water Quality Chronic Criterion for Selenium—Freshwater 2015" in the **Federal Register** (80 FR 44350). EPA's
