Title of Collection: Integrated Postsecondary Education Data System (IPEDS) 2015-2016 Pension Liabilities Update.

OMB Control Number: 1850-0582.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, local and tribal governments, Private Sector.

Total Estimated Number of Annual Responses: 71,867.

Total Estimated Number of Annual Burden Hours: 1,050,870.

Abstract: The Integrated Postsecondary Education Data System (IPEDS) is a web-based data collection system designed to collect basic data from all postsecondary institutions in the United States and the other jurisdictions. IPEDS enables The National Center of Education Statistics (NCES) to report on key dimensions of postsecondary education such as enrollments, degrees and other awards earned, tuition and fees, average net price, student financial aid, graduation rates, revenues and expenditures, faculty salaries, and staff employed. The IPEDS web-based data collection system was implemented in 2000-01, and it collects basic data from approximately 7,500 postsecondary institutions in the United States and the other jurisdictions that are eligible to participate in title IV Federal financial aid programs. All title IV institutions are required to respond to IPEDS (section 490 of the Higher Education Amendments of 1992; Pub. L. 102-325). IPEDS allows other (non-title IV) institutions to participate on a

voluntary basis. About 200 institutions elect to respond. IPEDS data are available to the public through the College Navigator and IPEDS Web sites.

Additional Information: ED is requesting emergency processing due to an unanticipated event. The Government Accounting Standards Board (GASB) changed the reporting standards for pensions such that unfunded pension liabilities are now included in the financial statements (GASB Standard 68). In the initial reporting year (2015), institutions will report the total amount of accrued pension liabilities. This will result in a dramatic increase in reported expenses for the 2015 year. In subsequent years, reporting will show only the incremental increase in unfunded pension liabilities. The approximately 2,000 public institutions using GASB accounting standards that have ever participated in pension systems will be particularly affected by this change in reporting standards when the IPEDS collection opens on December 9, 2015. To accommodate this change, NCES proposes to add to the IPEDS Finance survey a new screening question and three new fields related to the unfunded pension liabilities to allow the affected institutions to provide information that will allow NCES to correctly calculate cost per Full-Time Enrolled Student for these institutions. This addition is expected to increase IPEDS reporting burden for approximately 2,000 Public GASB institutions by an average of 30 minutes. ED requests approval of this emergency request by November 20, 2015.

Dated: October 15, 2015.

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer (OCPO), Office of Management.
