

Atlantic Shark Identification Workshops

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic sharks (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Approximately 115 free Atlantic Shark Identification Workshops have been conducted since January 2007.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit which first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer reports. Atlantic shark dealers are prohibited from renewing a Federal shark dealer permit unless a valid Atlantic Shark Identification Workshop certificate for each business location that first receives Atlantic sharks has been submitted with the permit renewal application. Additionally, trucks or other conveyances that are extensions of a dealer's place of business must possess a copy of a valid dealer or proxy Atlantic Shark Identification Workshop certificate.

Since 2010, as part of their 2008 Interstate Coastal Shark Fishery Management Plan (FMP), the Atlantic States Marine Fisheries Commission (ASMFC) has required all state dealers who purchase sharks to hold a Federal commercial shark dealer permit. A recent comparison of dealers who have reported purchasing smooth dogfish in 2015 with a current list of Federal shark dealer permit holders indicated that a number of state dealers in some Atlantic coastal states did not hold a Federal commercial shark dealer permit. On October 8, 2015, ASMFC notified all states from Maine through Florida of this issue, and reminded them of the requirement that all shark dealers must hold a Federal commercial shark dealer permit. In addition, NMFS is currently in final rulemaking for Amendment 9 to

the 2006 Consolidated HMS FMP (August 7, 2014, 79 FR 4627), which will establish an effective date for many of the smooth dogfish regulations that were finalized in Amendment 3 to the 2006 Consolidated HMS FMP, including the requirement for vessel and dealer permits. Given ASMFC's recently discovered need to ensure that all state dealers purchasing smooth dogfish are federally permitted and in anticipation of the final rule for Amendment 9 and its requirements, NMFS has determined that an additional Atlantic Shark Identification Workshop is needed to accommodate shark dealers in the New York and southern New England area. Affected dealers may also attend the previously scheduled November 12, 2015, workshop in Mount Pleasant, SC, or the December 3, 2015, workshop in Largo, FL (80 FR 54533).

Date, Time, and Location of Atlantic Shark Identification Workshop

December 10, 2015, 12 p.m.–4 p.m., LaQuinta Inn & Suites, 10 Aero Road, Bohemia, NY 11706.

Registration

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander at esander@peoplepc.com or at (386) 852–8588.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items to the workshop:

- All participants must bring proof of identification.
- Atlantic shark dealer permit holders must bring proof that the attendee is an owner or agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.
- Atlantic shark dealer proxies must bring documentation from the permitted dealer acknowledging that the proxy is attending the workshop on behalf of the permitted Atlantic shark dealer for a specific business location, a copy of the appropriate valid permit, and proof of identification.

Workshop Objectives

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock

assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 16, 2015.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northeast Multispecies Amendment 16.

OMB Control Number: 0648–0605.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 1,482.

Average Hours per Response: Sector operations plan and associated National Environmental Policy Act (NEPA) analysis, 640 hr/response; Monitoring service provider initial application, 10 hr/response; Monitoring service provider response to application disapproval, 10 hr/response; Data entry for sector discard monitoring system, 3 min/response; Sector weekly catch report, 4 hr/response; Sector annual report, 12 hr/response; Notification of expulsion from a sector, 30 min/response; Request to transfer Annual Catch Entitlement (ACE), 5 min/response; VMS certification form, 10 min/response; VMS confirmation call, 5 min/response; VMS area and DAS declaration, 5 min/response; VMS trip-level catch report; VMS daily catch reports when fishing in multiple broad stock areas, 15 min/response; Daily VMS catch reports when fishing in the U.S./Canada Management Area and CA II SAPs, 15 min/response; Daily VMS catch reports when fishing in the CA I Hook Gear Haddock SAP, 15 min/response; Daily VMS catch reports when fishing in the Regular B DAS Program, 15 min/response; Pre-trip hail report, 2 min/response; Trip-end hail report, 15

min/response; Forward trip start/end hauls to NMFS, 2 min/response; ASM Pre-Trip Notification, 2 min/response; Vessel notification of selection for at-sea monitoring coverage, 5 min/response; at-sea monitor deployment report, 10 min/response; at-sea monitoring service provider catch report to NMFS upon request, 5 min/response; at-sea monitor report of harassment and other issues, 30 min/response; at-sea monitoring service provider contract upon request, 30 min/response; at-sea monitoring service provider information materials upon request, 30 min/response; OLE debriefing of at-sea monitors, 2 hr/response; ASM Database and Data Entry Requirements, 3 min/response; Observer program pre-trip notification, 2 min/response; DAS Transfer Program, 5min/response; Expedited Submission of Proposed SAPs, 20 hr/response; NAFO Reporting Requirements, 10 min/response.

Burden Hours: 38,812.

Needs and Uses: This request is for revision and extension of a current information collection. Under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Secretary of Commerce has the responsibility for the conservation and management of marine fishery resources. We, National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS), and the Regional Fishery Management Councils are delegated the majority of this responsibility. The New England Fishery Management Council (Council) develops management plans for fishery resources in New England.

In 2010, we implemented a new suite of regulations for the Northeast (NE) multispecies fishery through Amendment 16 to the Multispecies Fishery Management Plan (Amendment 16). This action updated status determination criteria for all regulated NE multispecies or ocean pout stocks; adopted rebuilding programs for NE multispecies stocks newly classified as being overfished and subject to overfishing; revised management measures, including significant revisions to the sector management measures, necessary to end overfishing, rebuild overfished regulated NE multispecies and ocean pout stocks, and mitigate the adverse economic impacts of increased effort controls. It also implemented new requirements under Amendment 16 for establishing acceptable biological catch (ABC), annual catch limits (ACLs), and accountability measures (AMs) for each stock managed under the FMP, pursuant to the Magnuson-Stevens Fishery

Conservation and Management Act (Magnuson-Stevens Act).

Revisions

This revision incorporates a number of recent changes related to regulatory actions. Framework Adjustment 48 to the FMP (78 FR 26118; May 3, 2013) proposed to exempt sector vessels targeting monkfish from the additional at-sea monitoring coverage necessary to monitor groundfish catch. This measure was intended to allocate limited at-sea monitoring resources to monitor those trips that catch the most groundfish. To implement this measure, NMFS added a question to both the pre-trip notification and Northeast Fisheries Observer Program notification to allow fishermen to indicate what fishery they intend to participate in. This change allowed NMFS to identify trips that may qualify for this exemption, in order to deploy observers and at-sea monitors appropriately to achieve the coverage levels required by the FMP. Framework 48 also eliminated the dockside monitoring program established under Amendment 16 because NMFS determined dealer reporting combined with dockside intercepts by enforcement personnel are sufficient to ensure reliable landings data. Elimination of the dockside monitoring program was not included in the applicable non-substantive change request and thus this change will be included in the revision/extension.

As part of Framework Adjustment 53 to the FMP (80 FR 25110; May 1, 2015), NMFS implemented a requirement that vessels that declare trips into the Gulf of Maine Broad Stock Area and any other broad stock area (*i.e.*, Georges Bank or Southern New England) on the same trip submit a daily catch report via vessel monitoring system (VMS). We determined the daily VMS trip reports were necessary to ensure accurate apportionment of catch and help enforcement efforts. This requirement was approved temporarily through emergency PRA approval. We are proposing to permanently adjust this information collection to include this reporting requirement.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, on occasion, weekly, daily and as requested.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent

within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: October 16, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2015-OS-0100]

Privacy Act of 1974; System of Records

AGENCY: National Security Agency/Central Security Service, DoD.

ACTION: Notice to alter a System of Records.

SUMMARY: The National Security Agency/Central Security Service proposes to alter a system of records notice GNSA 18, entitled "Operations Records." This system is used to maintain records on foreign intelligence, counterintelligence, and information assurance/cybersecurity matters relating to the missions of the National Security Agency. The National Security Agency does not collect such records for the purpose of suppressing or burdening criticism or dissent, or for disadvantaging individuals based on their ethnicity, race, gender, sexual orientation, or religion.

DATES: Comments will be accepted on or before November 20, 2015. This proposed action will be effective on the date following the end of the comment period unless comments are received which result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal:* <http://www.regulations.gov>.

Follow the instructions for submitting comments.

* *Mail:* Department of Defense, Office of the Deputy Chief Management Officer, Directorate of Oversight and Compliance, Regulatory and Audit Matters Office, 9010 Defense Pentagon, Washington, DC 20301-9010.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov>.
