Under the terms of the proposed consent decree, EPA would agree to sign its response granting or denying the petition filed by the Plaintiffs regarding Southwestern Electric Power Company for operation of the H.W. Pirkey Power Plant in Harrison County, Texas, pursuant to section 505(b)(2) of the CAA, on or before February 12, 2016.

Under the terms of the proposed consent decree, EPA would expeditiously deliver notice of EPA’s response to the Office of the Federal Register for review and publication following signature of such response. In addition, the proposed consent decree outlines the procedure for the Plaintiffs to request costs of litigation, including attorney fees.

For a period of thirty (30) days following the date of publication of this notice, EPA will accept written comments relating to the proposed consent decree from persons who are not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this proposed decree should be withdrawn, the terms of the consent decree will be affirmed.

It is important to note that EPA’s policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at www.regulations.gov without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA’s policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA’s electronic public docket but will be available only in printed, paper form in the official public docket. If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment and with any disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket,

and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the www.regulations.gov Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (email) system is not an "anonymous access" system. If you send an email comment directly to the Docket without going through www.regulations.gov, your email address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

Dated: October 7, 2015.

Notice of Public Meeting and Webinar and Request for Comment on the Draft Document "Technologies for Legionella Control: Scientific Literature Review"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting and request for comment.

SUMMARY: The U.S. Environmental Protection Agency (EPA) announces the release of a draft document, "Technologies for *Legionella* Control: Scientific Literature Review," for public review and comment, and a public meeting, during which EPA will be seeking input on the draft document. The purpose of the draft document is to characterize the current state of knowledge regarding the use and effectiveness of available control technologies and approaches that can be used to address *Legionella* public health concerns in building water systems. The term "building water system" refers to the pipe infrastructure inside a building used to deliver finished drinking water intended for human consumption. For

the purpose of this draft document, the term excludes cooling towers. The draft document presents scientific information from peer reviewed literature related to control technologies. It does not rank or recommend any one technology over another. EPA developed the document to provide a non-regulatory tool to assist states and primacy agencies, building water system operators and building owners when making decisions about *Legionella* risk management options. Following the public review and comment opportunity, EPA will conduct an independent, expert peer review of the draft document before it is finalized and published.

DATES: The public meeting will be held on November 9, 2015, from 1:00 p.m. to 5:30 p.m., eastern time. Persons wishing to attend the meeting in-person or online via webinar must register by November 3, 2015, as described in the **SUPPLEMENTARY INFORMATION** section. EPA will consider written comments received prior to November 23, 2015, when preparing the document for the external peer review.

ADDRESSES: The public meeting will be held at the EPA Potomac Yard South Building, 1st Floor Conference Center (One Potomac Yard, 2777 S. Crystal Drive, Arlington, VA 22202). All attendees must show government-issued photo identification (e.g., a driver's license) when signing in. This meeting will be simultaneously broadcasted as a webinar, available on the Internet.

FOR FURTHER INFORMATION CONTACT: For technical questions, contact César Cordero, Standards and Risk Management Division, Office of Ground Water and Drinking Water at (202) 564-3716 or cordero.cesar@epa.gov. For questions regarding registration for the public meeting, contact Sarah Rains at (703) 247-6195 or LegionellaMeeting@cadmusgroup.com.

SUPPLEMENTARY INFORMATION:

I. General Information

A. What is the scope and the intended audience of the draft document?

The draft document provides an overview of *Legionella* ecology, physiology, occurrence and other topics relevant to the microorganism; an overview of systemic considerations for *Legionella* control; information on the current state of knowledge regarding the use and effectiveness of available control technologies for prevention and control of *Legionella*; a discussion about potential water quality issues that may result from the use of such technologies; and information on optimal operational

conditions for the use of control technologies. *Legionella* control issues in cooling towers are beyond the scope of the document. The target audience for the document includes, but is not limited to, primacy agencies, building water system operators, building owners and technology developers and vendors.

B. How can I get copies of the draft document and other related information, and submit written comments?

The draft document and other related information will be available in the Water Docket, identified by docket identification (ID) number EPA-HQ-OW-2015-0595, which is available at <http://www.regulations.gov> or at the Water Docket, Environmental Protection Agency, Room 3334, 1301 Constitution Ave. NW., Washington, DC.
