

State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

**F. Environment**

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves implementation of regulations within 33 CFR part 100 that apply to organized marine events on the navigable waters of the United States that may have potential for negative impact on the safety or other interest of waterway

users and shore side activities in the event area. The category of water activities includes but is not limited to sailboat regattas, boat parades, power boat racing, swimming events, crew racing, canoe and sailboard racing. It is categorically excluded from further review under paragraph 34(h) of Figure 2-1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

**G. Protest Activities**

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

**SUPPLEMENTARY INFORMATION:**

Multnomah County has requested that the Hawthorne Bridge, mile 13.1, across the Willamette River at Portland, Oregon remain in the closed-to-navigation position from 5 a.m. until 5 p.m. on November 15, 2015 to allow for critical maintenance repairs to the bridge lifting mechanism.

The Hawthorne Bridge is a vertical lift bridge providing 49 feet of vertical clearance in the closed-to-navigation position, and unlimited clearance in the open position referenced to the vertical clearance above Columbia River Datum 0.0. The Hawthorne Bridge operates in accordance with 33 CFR 117.897, which allows the bridge to remain closed between 7 a.m. and 9 a.m. and 4 p.m. and 6 p.m. Monday through Friday. The bridge shall operate in accordance to 33 CFR 117.897 at all other times.

Vessels able to pass through the bridge in the closed-to-navigation position may do so at anytime. The bridge will not be able to immediately open for emergencies, and there is no immediate alternate route for vessels to pass. However, with a two hour notification for an emergency opening request, the lift mechanism may be reassembled for the lift span to be opened. Major waterway users have been notified and coordinated with for this deviation period. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridges so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the

end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.
