See *Exemption of Out-of-Serv. Rail Lines*, 5 I.C.C.2d 377 (1989). Interested persons may obtain a copy of the EA by writing to OEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling OEA at (202) 245-0305. If consummation has not been effected by CRC's filing of a notice of consummation by October 23, 2016, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

##### I. Background

Pursuant to the provisions of the Privacy Act of 1974, 5 U.S.C. 552a, and as part of its ongoing integration and management efforts, DOT is retiring the system of records notice, DOT/ALL 18 International Freight Data System (IFDS) (April 14, 2008, 73 FR 20084), which was intended to be an automated system that provided participating DOT Operating Administrations with international commercial information to perform their enforcement, statistical, analytical, modeling and policy responsibilities. The IFDS was never implemented by the DOT and the DOT will continue to rely upon DHS/CBP-001, Automated Commercial Environment/International Trade Data System (January 19, 2006, 71 FR 3109) for the collection and dissemination of international commercial information.

[Docket No. DOT-OST-2015-0160]

#### Privacy Act of 1974; Department of Transportation/ALL 8, Parking and Transit Benefit System

**AGENCY:** Privacy Office, Office of the Secretary of Transportation, DOT.

**ACTION:** Notice of Privacy Act system of records.

It also allows the Federal Aviation Administration to collect and maintain records on behalf of its employees who participate in transit and parking benefit programs administered by the Federal Aviation Administration. In addition to non-substantive changes to simply the formatting and text of the previously published notice, we are revising this notice to reflect System Manager's address change, and clarify the routine uses of information in the system. #### SUPPLEMENTARY INFORMATION:

##### I. Background

The DOT/Office of the Secretary (OST) manages a Transportation Subsidy Program (TSP) and facilitates the distribution of public-transport fare media to DOT and other Federal Agency employees, to schedule distribution of the fare media, to maintain an inventory of fare media on hand, and to manage the fare media billing. DOT administers the TSP for its employees, and, also, for employees of other Federal agencies through Interagency Agreements between DOT and the employer-agency. Additionally, the Office of Transportation Services (TRANServe), within DOT's Office of the Assistant Secretary for Administration, manages the bicycle benefit program and the vehicle parking resources at the DOT South East Federal Center (SEFC)

Headquarters Facility. Parking at the Headquarters Facility is allocated via the DOT Headquarters Parking Application (DOT HPA) reservation system. The Federal Aviation Administration (FAA) administers its own parking and transit benefit program for FAA employees in the Washington, DC area (transit and parking benefits for FAA field office employees are administered by OST).

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the U.S. Department of Transportation (DOT)/Office of the Secretary of Transportation (OST) proposes to rename, update, and reissue the DOT system of records currently titled, "DOT/ALL-8 Employee Transportation Facilitation." This system of records will be renamed "DOT/ALL-8, Parking and Transit Benefit System."

In addition, we are updating this system of records notice to reflect the change in the system manager's address resulting from DOT's move from its previous headquarters location at 400 7th Street SW., Washington, DC 20950, to its new location of 1200 New Jersey Ave. SE., Washington, DC 20590. We have also updated the system to provide greater detail about the categories of records collected and maintained, and include additional categories to reflect DOT's administration of the bicycle benefit program. Additionally, DOT will begin to collect the names of other riders in van pools (in addition to those individuals who are participating in the TSP). DOT will collect this information to aid in efforts to identify potential waste, fraud, and abuse. Finally, we are updating the routine uses to provide greater clarity and specificity to our routine uses of the information in this system. The current SORN generally describes the routine uses for this system in a narrative format. We wish to update this to provide great specificity about who we disclose these records to and the purposes for which we make the disclosure. We believe that these changes do not substantively alter the current routine uses, but merely provide greater transparency.

This updated system will be included in DOT's inventory of record systems.

##### II. Privacy Act

The Privacy Act (5 U.S.C. 552a) governs the means by which the Federal Government collects, maintains, and uses personally identifiable information (PII) in a System of Records. A "System of Records" is a group of any records under the control of a Federal agency from which information about individuals is retrieved by name or other personal identifier. The Privacy
