

Exchange also proposes to adopt new Exchange Rule 11.1(a)(1) to define Effective Start Time, an order instruction that would allow Members³ to indicate a time upon which their order may become eligible for execution. The proposed rule change was published for comment in the **Federal Register** on September 10, 2015.⁴

Section 19(b)(2) of the Act⁵ provides that, within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The Commission is extending this 45-day time period. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change.

Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,⁶ designates December 9, 2015, as the date by which the Commission shall either approve or disapprove or institute proceedings to determine whether to disapprove the proposed rule change (File Number SR-BATS-2015-69).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁷

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-76208; File No. SR-NYSEMKT-2015-78]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Modifying the NYSE Amex Options Fee Schedule Related to the Amex Customer Engagement Program

October 21, 2015.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on October 15, 2015, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to modify the NYSE Amex Options Fee Schedule (“Fee Schedule”) related to the Amex Customer Engagement (“ACE”) Program. The Exchange proposes to implement the fee change effective October 15, 2015. The text of the proposed rule change is available on the Exchange’s Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to increase the credits available to participants that achieve Tier 2 of the ACE Program as described below.

Section I.E. of the Fee Schedule describes the ACE Program,⁴ which features five tiers expressed as a percentage of total industry Customer equity and ETF option average daily volume (“ADV”).⁵ Order Flow Providers (“OFPs”) receive per contract credits solely for Electronic Customer volume that the OFP, as agent, submits to the Exchange.⁶ The ACE Program offers the following two methods for OFPs to receive credits:

1. By calculating, on a monthly basis, the average daily Customer contract volume an OFP executes Electronically on the Exchange as a percentage of total average daily industry Customer equity and ETF options volume;⁷ or

2. By calculating, on a monthly basis, the average daily contract volume an OFP executes Electronically in all participant types (*i.e.*, Customer, Firm, Broker-Dealer, NYSE Amex Options Market Maker, Non-NYSE Amex Options Market Maker, and Professional Customer) on the Exchange, as a percentage of total average daily industry Customer equity and ETF option volume,⁸ with the further requirement that a specified percentage of the minimum volume required to qualify for the Tier must be Customer volume.

Upon reaching a higher tier, an OFP would receive for all eligible Customer

⁴ See NYSE Amex Options Fee Schedule, available here, https://www.theice.com/publicdocs/nyse/markets/amex-options/NYSE_Amex_Options_Fee_Schedule.pdf.

⁵ In calculating ADV, the Exchange utilizes monthly reports published by the OCC for equity options and ETF options that show cleared volume by account type. See OCC Monthly Statistics Reports, available here, <http://www.theocc.com/webapps/monthly-volume-reports> (including for equity options and ETF options volume, subtotaled by exchange, along with OCC total industry volume). The Exchange calculates the total OCC volume for equity and ETF options that clear in the Customer account type and divide this total by the number of trading days for that month (*i.e.*, any day the Exchange is open for business). For example, in a month having 21 trading days where there were 252,000,000 equity option and ETF option contracts that cleared in the Customer account type, the calculated ADV would be 12,000,000 (252,000,000/21 = 12,000,000).

⁶ Electronic Customer volume is volume executed electronically through the Exchange System, on behalf of an individual or organization that is not a Broker-Dealer and who does not meet the definition of a Professional Customer.

volume the per contract credit associated with the highest tier achieved, retroactive to the first contract traded each month, regardless of which

of the two calculation methods the OFP qualifies under.⁹ The Exchange proposes to modify the ACE Program by increasing the credits available for Tier 2 as illustrated in the

table below, with proposed additions appearing italicized and proposed deletions appearing in brackets:
* * * * *

Tier	ACE program—standard options			Credits payable on customer volume only		
	Customer electronic ADV as a % of industry customer equity and ETF Options ADV	OR	Total electronic ADV (of which 20% or greater of the minimum qualifying volume for each tier must be customer) as a % of industry customer equity and ETF options ADV	Customer volume credits	1 Year enhanced customer volume credits	3 Year enhanced customer volume credits
1	0.00% to 0.60%	N/A	\$0.00	\$0.00	\$0.00
2	>0.60% to 0.80%	N/A	(\$0.13)	[((\$0.13)]	[((\$0.13)]
3	>0.80% to 1.25%	1.50% to 2.50% of which 20% or greater of 1.50% must be Customer.	(\$0.14)	(\$0.16)	(\$0.18)
4	>1.25 to 1.75%	>2.50% to 3.50% of which 20% or greater of 2.50% must be Customer.	(\$0.17)	(\$0.19)	(\$0.21)
5	>1.75%	>3.50% of which 20% or greater of 3.5% must be Customer.	(\$0.19)	(\$0.21)	(\$0.23)

The proposed amendments to the ACE Program are designed to enhance the rebates, which the Exchange believes would attract more volume and liquidity to the Exchange to the benefit of Exchange participants through increased opportunities to trade as well as enhancing price discovery.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act,¹¹ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes that the proposed changes to the ACE Program are reasonable, equitable and not unfairly discriminatory because the credits offered are based on the amount of business transacted on the Exchange. In addition, the Exchange believes that the proposed amendments to the ACE Program are reasonable, equitable and not unfairly discriminatory because they would enhance the incentives to OFPs to transact Customer orders on the Exchange, which would benefit all market participants by providing more trading opportunities and tighter spreads, even to those market participants that do not participate in

the ACE Program. Additionally, the Exchange believes the proposed changes to the ACE Program are consistent with the Act because they may attract greater volume and liquidity to the Exchange, which would benefit all market participants by providing tighter quoting and better prices, all of which perfects the mechanism for a free and open market and national market system.

For these reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,¹² the Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed amendments to the ACE Program are pro-competitive as the proposed increased rebates may encourage OFPs to direct Customer order flow to the Exchange and any resulting increase in volume and liquidity to the Exchange would benefit all of Exchange participants through increased opportunities to trade as well as enhancing price discovery.

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must

continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed rule change reflects this competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)¹³ of the Act and subparagraph (f)(2) of Rule 19b-4¹⁴ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁵ of the Act to determine whether the proposed rule

⁹ In the event that an OFP is eligible for credits under both calculation methods, the OFP would benefit from whichever criterion results in the highest per contract credit for all the OFP's eligible ADV. In calculating an OFP's Electronic volume,

certain volumes are excluded (e.g., QCC trades). See Fee Schedule (Section I.E.), *supra* n. 4.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-76210; File No. SR-EDGA-2015-36]

Self-Regulatory Organizations; EDGA Exchange, Inc.; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To Amend Rules 1.5(s), 11.1(a)(1), 11.6 and 11.8

October 21, 2015.

On September 3, 2015, EDGA Exchange, Inc. (the "Exchange" or "EDGA") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend rules related to the Pre-Opening Session, including revising: (1) Exchange Rule 1.5(s) to state that the Pre-Opening Session will start at 7:00 a.m. rather than 8:00 a.m. Eastern Time and (2) Exchange Rule 11.1(a)(1) regarding the hours of trading and trading days of the Exchange to account for the Pre-Opening Session starting at 7:00 a.m. Eastern Time. The Exchange also proposes to adopt a new order instruction, Effective Start Time, including revising: (1) Exchange Rule 11.6 to define Effective Start Time as an order instruction that would allow Members³ to indicate a time upon which their order may become eligible for execution and (2) Exchange Rule 11.8 to identify the order types that may utilize an Effective Start Time order instruction. The proposed rule change was published for comment in the **Federal Register** on September 10, 2015.⁴

Section 19(b)(2) of the Act⁵ provides that, within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be
