BILLING CODE 1505-01-D

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP14-529-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Connecticut Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Connecticut Expansion Project, proposed by Tennessee Gas Pipeline Company, L.L.C. (Tennessee) in the above-referenced docket. Tennessee requests authorization to construct and operate certain natural gas pipeline and aboveground facilities along its existing pipeline system in various counties in New York, Massachusetts, and Connecticut to provide an additional 72.1 million cubic feet per day of firm transportation service to three new shippers: Connecticut Natural Gas Corporation, Southern Connecticut Gas Company, and Yankee Gas Services Company.

The EA assesses the potential environmental effects of the construction and operation of the Connecticut Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The New York State Department of Agriculture and Markets participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The proposed Connecticut Expansion Project includes the following facilities:

- About 1.4 miles of new 36-inch-diameter natural gas pipeline loop in Albany County, New York;

- about 3.8 miles of new 36-inch-diameter natural gas pipeline loop in Berkshire County, Massachusetts;

- about 8.3 miles of new 24-inch-diameter natural gas pipeline loop in Hampden County, Massachusetts and Hartford County, Connecticut;

- modifications at the existing

Agawam Compressor Station (Compressor Station 261) in Hampden County, Massachusetts;

- appurtenant facilities, including a mainline valve, cathodic protection, and pig launchers and receivers; and
- relocation of two existing pig receiver facilities.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at:

Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before November 23, 2015.

For your convenience, there are three methods you can use to file your comments to the Commission. In all instances, please reference the project docket number (CP14-529-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature
