

other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, Nasdaq believes that the degree to which changes to credits in this market may impose a burden on competition is extremely limited or even non-existent. In this instance, the changes to Nasdaq Rule 7018 to amend criteria to qualify for credits do not impose a burden on competition because Nasdaq's execution services are voluntary and subject to extensive competition both from other exchanges and from off-exchange venues.

Additionally, the Exchange does not believe the addition of credits available to members that execute shares in Select Symbols will impose a burden on competition, but rather may promote competition among exchanges in trading in the Select Symbols. Moreover, the proposed changes are reflective of the competition that exists between exchanges and off-exchange venues that are subject to lesser regulatory burdens than the exchanges, including transparency. Lastly, the proposed changes are designed to enhance market quality.

While the Exchange does not believe that the proposed changes will result in burden on competition, if the changes proposed herein are unattractive to market participants it is likely that Nasdaq will lose market share as a result.
