

Justice Programs' (OJP) MOV online application system at: <https://www.bja.gov/programs/medalofvalor/index.html>.

4. Affected public who will be asked or required to respond, as well as a brief abstract: The information that is being collected is solicited from federal, state, local and tribal public safety agencies, who wish to nominate their personnel to receive the Public Safety Officer Medal of Valor (MOV). This information is provided on a voluntary basis, includes agency and nominee information along with details about the events for which the nominees are to be considered when determining who will be recommended to receive the MOV.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: Over the last four application submission periods, (2011–2012 thru 2014–2015), there were a total of 514 applications received. Taking this number into account, the average number of applications that are anticipated to be received on an annual basis is 128.5. This number does not factor in the ongoing outreach efforts (e.g. marketing and social medial outreach) that are intended to increase the number of annual submissions. In addition, it is projected that the application submission process takes approximately 25 minutes. This would include, reviewing the fields of required and optional information, arranging the information and populating the online application form.

6. An estimate of the total public burden (in hours) associated with the collection: Based upon the average number of submissions over the last 4 years, and the estimated time required to complete each submission, the estimated annual public burden would be 53.54 hours.

$$\text{a. } 128.5 \times 25 \text{ minutes} = 3,212.5 \text{ minutes}/60 = 53.54 \text{ hours.}$$

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Distribution of Characteristics of the Insured Unemployed (Form ETA-203) information collection that provides a once a month snapshot of the demographic composition of the Unemployment Insurance (UI) claimant population. This report is the only source of current and consistent demographic information (age, race/ethnicity, sex, occupation, industry) on the UI claimant population. These characteristics identify important claimant cohorts for legislative, economic and social planning purposes, and evaluation of the UI program on the Federal and State levels. Social Security Act section 303(a)(6) authorizes this information collection. See 42 U.S.C. 503(a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0009.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on December 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 13, 2015 (80 FR 27350).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0009. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by December 7, 2015. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755,

Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT:

Nature McGinn, ACA Permit Officer, at the above address or *ACAPermits@nsf.gov* or (703) 292–7149.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2015–015) to Joseph A. Covi on December 30, 2014. The issued permit allows the applicant to collect sediment samples in ASPA 132 Potter Peninsula, ASPA 150 Ardley Island, and ASPA 171 Narebski Point, Barton Peninsula, all on King George Island, in order to study the viability and biodiversity of dormant zooplankton, and the presence and origin of anthropogenic chemicals in lakes and ephemeral ponds.

Now the applicant proposes a modification to his permit to add ASPA 125 Fildes Peninsula to the permit, as well as to change the sampling regime and number of samples taken. 1 to 2 lakes would be sampled in each ASPA, with 6 sediment grabs from each lake. Up to 2 ephemeral ponds per ASPA would be sampled, with 3 samples per pond, provided sampling is possible without disturbing the surrounding sediment.

Location: ASPA 125: Fildes Peninsula, King George Island, South Shetland Islands.

Dates: January 6–March 1, 2016.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.
