Draft Environmental Impact Statement for Management of Osage Nation Oil and Gas Resources, Osage County, Oklahoma

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act, the Bureau of Indian Affairs (BIA), as the lead Federal agency, with the Osage Nation and the Environmental Protection Agency (EPA) as cooperating agencies, has prepared a draft environmental impact statement (DEIS). This document is for the management of oil and gas resources owned by the United States in trust for the Osage in Osage County, Oklahoma. This notice announces that the DEIS is now available for public review and that the BIA will hold a public meeting to solicit comments on it.

DATES: A public meeting has been scheduled from 3 p.m. to 6 p.m. on November 30, 2015, at the Wah Zha Zhi Cultural Center, 1449 Main St., Pawhuska, Oklahoma. In order to be fully considered, written comments on the DEIS must arrive no later than 45 days after the EPA publishes its Notice of Availability in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Ms. Jeannine Hale, Division of Environmental and Cultural Resources, BIA Eastern Oklahoma Regional Office, P.O. Box 8002, Muskogee, OK 74402-8002, (918) 781-4660.

SUPPLEMENTARY INFORMATION: The proposed action for this EIS is to update and provide additional analysis on the impacts of the BIA lease and permit approval program to facilitate the development of oil and gas in Osage County in an efficient manner that prevents pollution.

Under the Osage Allotment Act of 1906, the United States reserved all rights to the mineral estate in Osage County for the benefit of the Osage. The mineral estate is held in trust, and the BIA approves oil and gas leases, applications for permits to drill, and other site-specific permit applications in Osage County under the authority of the Osage Allotment Act, as amended and 25 Code of Federal Regulations Part 226.

The BIA, under delegation of the Secretary of the Interior, is responsible for administering the development of oil and gas resources in Osage County for the benefit of the Osage. The Federal actions, including approvals of leases and issuance of permits, are needed for the BIA to fulfill a portion of its trust responsibility to the Osage and to facilitate the development of the mineral estate. The EIS will replace the 1979 Environmental Assessment for the Oil and Gas Leasing Program of the Osage Indian Tribe.

The DEIS analyzes three alternatives for managing oil and gas development in Osage County, one of which is the No Action Alternative. The alternatives represent the range of reasonable actions that could be taken to satisfy the purpose of and need for the BIA's action. The objective of the alternatives is, to the extent possible, to minimize potential adverse impacts on landowners, wildlife, and natural and cultural resources from noise, traffic, excavations, dust, and other disturbances associated with construction and operations under oil and gas leases. The alternatives for the Osage County Oil and Gas EIS were developed through public scoping, an alternatives development workshop with cooperating agencies, and a draft alternatives concepts public listening session.
