Medicare Program; CY 2016 Inpatient Hospital Deductible and Hospital and Extended Care Services Coinsurance Amounts

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

SUMMARY: This notice announces the inpatient hospital deductible and the hospital and extended care services coinsurance amounts for services furnished in calendar year (CY) 2016 under Medicare’s Hospital Insurance Program (Medicare Part A). The Medicare statute specifies the formulae used to determine these amounts. For CY 2016, the inpatient hospital deductible will be $1,288. The daily coinsurance amounts for CY 2016 will be: (1) $322 for the 61st through 90th day of hospitalization in a benefit period; (2) $644 for lifetime reserve days; and (3) $161.00 for the 21st through 100th day of extended care services in a skilled nursing facility in a benefit period.

DATES: Effective Date: This notice is effective on January 1, 2016.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1813 of the Social Security Act (the Act) provides for an inpatient hospital deductible to be subtracted from the amount payable by Medicare for inpatient hospital services furnished to a beneficiary. It also provides for certain coinsurance amounts to be subtracted from the amounts payable by Medicare for inpatient hospital and extended care services. Section 1813(b)(2) of the Act requires us to determine and publish each year the amount of the inpatient hospital deductible and the hospital and extended care services coinsurance amounts applicable for services furnished in the following calendar year (CY).

II. Computing the Inpatient Hospital Deductible for CY 2016

Section 1813(b) of the Act prescribes the method for computing the amount of the inpatient hospital deductible. The inpatient hospital deductible is an amount equal to the inpatient hospital deductible for the preceding CY, adjusted by our best estimate of the payment-weighted average of the applicable percentage increases (as defined in section 1886(b)(3)(B) of the Act) used for updating the payment rates to hospitals for discharges in the fiscal year (FY) that begins on October 1 of the same preceding CY, and adjusted to reflect changes in real case-mix. The adjustment to reflect real case-mix is determined on the basis of the most recent case-mix data available. The amount determined under this formula is rounded to the nearest multiple of $4 or, if midway between two multiples of $4, to the next higher multiple of $4.

Under section 1886(b)(3)(B)(XX) of the Act, the percentage increase used to update the payment rates for FY 2016 for hospitals paid under the inpatient prospective payment system is the market basket percentage increase, otherwise known as the market basket update, reduced by 0.2 percentage points and the MFP adjustment (see sections 1886(s)(3)(A) and 1886(s)(4)(E) of the Act).

The Inpatient Prospective Payment System market basket percentage increase for 2016 is 2.4 percent and the MFP adjustment is 0.5 percent, as announced in the final rule that appeared in the Federal Register on August 17, 2015 entitled, “Hospital Inpatient Prospective Payment Systems for Acute Care Hospitals and the Long-Term Care Hospital Prospective Payment System Policy Changes and Fiscal Year 2016 Rates” (80 FR 49510). Therefore, the percentage increase for hospitals paid under the inpatient prospective payment system that submit quality data and are meaningful EHR users is 1.7 percent (that is, the FY 2016 market basket update of 2.4 percent less the MFP adjustment of 0.5 percentage point and less 0.2 percentage point).

The average payment percentage increase for hospitals excluded from the inpatient prospective payment system is 1.82 percent. Weighting these percentages in accordance with payment volume, our best estimate of
