Federal Aviation Administration

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: B4UFLY Smartphone App

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The FAA’s B4UFLY smartphone app will provide situational awareness of flight restrictions—including locations of airports, restricted airspace, special use airspaces, and temporary flight restrictions—based on a user’s current or planned flight location. In order to maintain NAS safety in proximity to airports, air traffic control personnel would need certain basic information about a UAS operator’s intended flight in order to assess whether the UAS may disrupt or endanger manned air traffic.

Respondents: Approximately 1000 beta testers.

Frequency: 5 submissions per week.

Estimated Average Burden per Response: approximately 2 minutes.

Estimated Total Annual Burden: 1,485 hours.

Issued in Washington, DC on November 18, 2015.

Ronda Thompson,
FAA Information Collection Clearance Officer, Performance, Policy, and Records Management Branch, ASP–110.
