

behind power lawn mowers have been identified.

Estimated Time per Response: Walk-behind power lawn mowers are manufactured seasonally to meet demand. They are manufactured during an estimated 130 days out of the year. When they are manufactured, firms are required to test and maintain records of those tests. Three hours daily is estimated for testing and recordkeeping per firm totaling 390 hours per firm (3 hours x 130 days). In addition, to produce labels and apply labels on the newly manufactured lawn mowers, one hour daily is estimated for each firm during the production cycle for a total of 130 hours per firm (1 hour x 130 days).

Total Estimated Annual Burden: 9,750 hours on testing and recordkeeping (25 firms x 390 hours) and 3,250 hours for labeling (25 firms x 130 hours) for a total annual burden of 13,000 hours per year.

General Description of Collection: In 1979, the Commission issued the Safety Standard for Walk-Behind Power Lawn Mowers (16 CFR part 1205) to address blade contact injuries. Subpart B of the standard sets forth regulations prescribing requirements for a reasonable testing program to support certificates of compliance with the standard for walk-behind power lawn mowers. 16 CFR part 1205, subpart B.

In addition, section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program. The information collection is necessary because these regulations require manufacturers and importers to establish and maintain records to demonstrate compliance with the requirements for testing and labeling to support the certification of compliance.

Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

—Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;

—Whether the estimated burden of the proposed collection of information is accurate;

—Whether the quality, utility, and clarity of the information to be collected could be enhanced; and

—Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: November 20, 2015.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2012–0056]

Agency Information Collection Activities; Proposed Collection; Comment Request; Safety Standard for Omnidirectional Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission (“CPSC” or “Commission”) requests comments on a proposed extension of approval of a collection of information associated with the Commission's Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204), approved previously under OMB Control No. 3041–0006. The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from the Office of Management and Budget (“OMB”).

DATES: Submit written or electronic comments on the collection of information by January 25, 2016.

ADDRESSES: You may submit comments, identified by Docket No. CPSC–2012–0056, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <http://www.regulations.gov>. Follow the instructions for submitting comments. The Commission does not accept comments submitted by electronic mail (email), except through www.regulations.gov. The Commission encourages you to submit electronic

comments by using the Federal eRulemaking Portal, as described above.

Written Submissions: Submit written submissions by mail/hand delivery/courier to: Office of the Secretary, Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504–7923.

Instructions: All submissions received must include the agency name and docket number for this notice. All comments received may be posted without change, including any personal identifiers, contact information, or other personal information provided, to: <http://www.regulations.gov>. Do not submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If furnished at all, such information should be submitted in writing.

Docket: For access to the docket to read background documents or comments received, go to: <http://www.regulations.gov>, and insert the docket number CPSC–2012–0056, into the “Search” box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT: Robert H. Squibb, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504–7815, or by email to: rsquibb@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Omnidirectional Citizens Band Base Station Antennas.

OMB Number: 3041–0006.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of omnidirectional citizens band base station antennas.

Estimated Number of Respondents: We have identified five firms that supply omnidirectional citizen band base station antennas.

Estimated Time per Response: Based on the information compiled by manufacturers, importers, and private labelers of antennas to test and maintain records for certificates of compliance, we estimate an average of 220 hours per firm for annual testing and recordkeeping.

Total Estimated Annual Burden: 1,100 hours (5 firms x 220 hours).

General Description of Collection: The Safety Standard for Omnidirectional Citizens Band Base Station Antennas

(16 CFR part 1204) establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury that may result if an antenna contacts overhead power lines while being erected or removed from its site. The regulations implementing the standard (16 CFR part 1204, subpart B) require manufacturers, importers, and private labelers of antennas subject to the standard to test the antennas for compliance with the standard and to maintain records of that testing.

Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: November 20, 2015.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0055]

Agency Information Collection Activities; Proposed Collection; Comment Request; Flammability Standards for Children's Sleepwear

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission ("CPSC" or "Commission") requests comments on a proposed extension of approval of a

collection of information associated with the Standard for the Flammability of Children's Sleepwear: Sizes 0 Through 6X (16 CFR part 1615); and the Standard for the Flammability of Children's Sleepwear: Sizes 7 Through 14 (16 CFR part 1616), approved previously under OMB Control No. 3041-0027. The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from the Office of Management and Budget ("OMB").

DATES: Submit written or electronic comments on the collection of information by January 25, 2016.

ADDRESSES: You may submit comments, identified by Docket No. CPSC-2012-0055, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <http://www.regulations.gov>. Follow the instructions for submitting comments. The Commission does not accept comments submitted by electronic mail (email), except through www.regulations.gov. The Commission encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

Written Submissions: Submit written submissions by mail/hand delivery/courier to: Office of the Secretary, Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923.

Instructions: All submissions received must include the agency name and docket number for this notice. All comments received may be posted without change, including any personal identifiers, contact information, or other personal information provided, to: <http://www.regulations.gov>. Do not submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If furnished at all, such information should be submitted in writing.

Docket: For access to the docket to read background documents or comments received, go to: <http://www.regulations.gov>, and insert the docket number CPSC-2012-0055, into the "Search" box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT: Robert H. Squibb, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504-7815, or by email to: rsquibb@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for the Flammability of Children's Sleepwear: Sizes 0 Through 6X; and the Standard for the Flammability of Children's Sleepwear: Sizes 7 Through 14.

OMB Number: 3041-0027.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of children's sleepwear.

Estimated Number of Respondents:

Based on a review of past firm inspections, and published industry information, approximately 50 large domestic companies manufacture most of the children's sleepwear produced in the United States. In addition, there may be up to 1,000 small domestic producers of children's sleepwear. Accordingly, there may be as many as 1,050 firms that manufacture children's sleepwear in the United States. There are also approximately 4,500 importers (which may include some of the domestic manufacturers) that supply children's sleepwear to the United States market.

Estimated Time per Response: The 50 large domestic manufacturers and the 100 largest importers may each introduce an average of 100 new children's sleepwear items annually. Testing and recordkeeping of each item is approximately 3 hours. The annual burden for the 50 large domestic manufacturers and the 100 largest importers is estimated at 45,000 hours for testing and recordkeeping (150 firms \times 100 items \times 3 hours). The remaining 1,000 manufacturers and 4,400 importers have on the average 10 new children's sleepwear items annually, for a testing and recordkeeping burden of 162,000 hours (5,400 firms \times 10 items \times 3 hours.)

Total Estimated Annual Burden: The total estimated potential annual burden imposed by the flammability standards on all manufacturers and importers of children's sleepwear is approximately 207,000 hours (45,000 hours + 162,000 hours).

Description of Collection: The Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X (16 CFR part 1615) and the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14 (16 CFR part 1616) address the fire hazard associated with small-flame ignition sources for children's sleepwear manufactured for sale in or imported into the United States. The standards also require manufacturers and importers of children's sleepwear to collect information resulting from
