

Iron mechanical transfer drive components subject to this investigation are those not less than 4.00 inches (101 mm) in the maximum nominal outer diameter.

Unfinished iron mechanical transfer drive components (*i.e.*, blanks or castings) possess the approximate shape of the finished iron mechanical transfer drive component and have not yet been machined to final specification after the initial casting, forging or like operations. These machining processes may include cutting, punching, notching, boring, threading, mitering, or chamfering.

Subject merchandise includes iron mechanical transfer drive components as defined above that have been finished or machined in a third country, including but not limited to finishing/machining processes such as cutting, punching, notching, boring, threading, mitering, or chamfering, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the iron mechanical transfer drive components.

Subject iron mechanical transfer drive components are covered by the scope of the investigation regardless of width, design, or iron type (*e.g.*, gray, white, or ductile iron). Subject iron mechanical transfer drive components are covered by the scope of the investigation regardless of whether they have non-iron attachments or parts and regardless of whether they are entered with other mechanical transfer drive components or as part of a mechanical transfer drive assembly (which typically includes one or more of the iron mechanical transfer drive components identified above, and which may also include other parts such as a belt, coupling and/or shaft). When entered as a mechanical transfer drive assembly, only the iron components that meet the physical description of covered merchandise are covered merchandise, not the other components in the mechanical transfer drive assembly (*e.g.*, belt, coupling, shaft).

For purposes of this investigation, a covered product is of “iron” where the article has a carbon content of 1.7 percent by weight or above, regardless of the presence and amount of additional alloying elements.

The merchandise covered by this investigation is currently classifiable under Harmonized Tariff Schedule of the United States (“HTSUS”) subheadings 8483.30.8090, 8483.50.6000, 8483.50.9040, 8483.50.9080, 8483.90.3000, 8483.90.8080. Covered merchandise may also enter under the following HTSUS subheadings: 7325.10.0080, 7325.99.1000, 7326.19.0010, 7326.19.0080, 8431.31.0040, 8431.31.0060, 8431.39.0010, 8431.39.0050, 8431.39.0070, 8431.39.0080, and 8483.50.4000. These HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of the investigation is dispositive.

Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review: Certain Frozen Warmwater Shrimp From Thailand

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request by Thai Union Group Public Co., Ltd. (Thai Union Group), a producer/exporter of certain frozen warmwater shrimp (shrimp) from Thailand, and pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), 19 CFR 351.216, and 19 CFR 351.221(c)(3)(ii), the Department of Commerce (the Department) is initiating a changed circumstances review (CCR) of the antidumping duty (AD) order on shrimp from Thailand with regard to Thai

Union Group. Based on the information received, we preliminarily determine that Thai Union Group is the successor-in-interest to Thai Union Frozen Products Public Co., Ltd. (Thai Union Frozen) for purposes of determining AD liability. Interested parties are invited to comment on these preliminary results.

SUPPLEMENTARY INFORMATION:

Background

On February 1, 2005, the Department published in the **Federal Register** an AD order on certain frozen warmwater shrimp from Thailand.¹ On September 17, 2015, Thai Union Group, a producer/exporter of Thai shrimp covered by this order, changed its name from Thai Union Frozen to Thai Union Group. On October 5, 2015, Thai Union Group requested that the Department conduct an expedited changed circumstances review under section 751(b) of the Act, 19 CFR 351.216(c), and 19 CFR 351.221(c)(3)(ii).² In this request, Thai Union Group asked the Department to determine that it is the successor-in-interest to Thai Union Frozen and, accordingly, to assign it the cash deposit rate of the Thai Union group of companies, of which Thai Union Frozen is a part.^{3,4} On October 8, 2015, we issued a supplemental questionnaire to Thai Union Group, to which the company responded on October 21, 2015.⁵

Scope of the Order

The scope of this order includes certain frozen warmwater shrimp and prawns, whether wild-caught (ocean harvested) or farm-raised (produced by aquaculture), head-on or head-off, shell-on or peeled, tail-on or tail-off,⁶ deveined or not deveined, cooked or raw, or otherwise processed in frozen form.

The products described above may be processed from any species of warmwater shrimp and prawns. Warmwater shrimp and prawns are generally classified in, but are not limited to, the Penaeidae family. Some examples of the farmed and wild-caught warmwater species include, but are not limited to, whiteleg shrimp (*Penaeus vannamei*), banana prawn (*Penaeus merguensis*), fleshy prawn (*Penaeus chinensis*), giant river prawn (*Macrobrachium rosenbergii*), giant tiger prawn (*Penaeus monodon*), redspotted shrimp (*Penaeus brasiliensis*), southern brown shrimp (*Penaeus subtilis*), southern pink shrimp (*Penaeus notialis*), southern rough shrimp (*Trachypenaeus curvirostris*), southern white shrimp (*Penaeus schmitti*), blue shrimp (*Penaeus stylirostris*), western white shrimp (*Penaeus occidentalis*), and Indian white prawn (*Penaeus indicus*).

Frozen shrimp and prawns that are packed with marinade, spices or sauce are included in the scope of this order. In addition, food preparations, which are not "prepared meals," that contain more than 20 percent by weight of shrimp or prawn are also included in the scope of this order.

Excluded from the scope are: (1) Breaded shrimp and prawns (HTSUS subheading 1605.20.10.20); (2) shrimp and prawns generally classified in the Pandalidae family and commonly referred to as coldwater shrimp, in any state of processing; (3) fresh shrimp and prawns whether shell-on or peeled (HTSUS subheadings 0306.23.00.20 and 0306.23.00.40); (4) shrimp and prawns in prepared meals (HTSUS subheading 1605.20.05.10); (5) dried shrimp and prawns; (6) canned warmwater shrimp and prawns (HTSUS subheading 1605.20.10.40); (7) certain battered shrimp. Battered shrimp is a shrimp-

based product: (1) That is produced from fresh (or thawed-from-frozen) and peeled shrimp; (2) to which a "dusting" layer of rice or wheat flour of at least 95 percent purity has been applied; (3) with the entire surface of the shrimp flesh thoroughly and evenly coated with the flour; (4) with the non-shrimp content of the end product constituting between four and ten percent of the product's total weight after being dusted, but prior to being frozen; and (5) that is subjected to IQF freezing immediately after application of the dusting layer. When dusted in accordance with the definition of dusting above, the battered shrimp product is also coated with a wet viscous layer containing egg and/or milk, and par-fried.

The products covered by this order are currently classified under the following HTSUS subheadings: 0306.17.00.03, 0306.17.00.06, 0306.17.00.09, 0306.17.00.12, 0306.17.00.15, 0306.17.00.18, 0306.17.00.21, 0306.17.00.24, 0306.17.00.27, 0306.17.00.40, 1605.21.10.30, and 1605.29.10.10. These HTSUS subheadings are provided for convenience and for customs purposes only and are not dispositive, but rather the written description of the scope of this order is dispositive.⁷

Initiation and Preliminary Results of Changed Circumstances Review

Pursuant to section 751(b)(1)(A) of the Act and 19 CFR 351.216(d), the Department will conduct a CCR upon receipt of a request from an interested party for a review of an AD order which shows changed circumstances sufficient to warrant a review of the order. The information submitted by Thai Union Group supporting its claim that it is the successor-in-interest to Thai Union Frozen demonstrates changed circumstances sufficient to warrant such a review.⁸

In accordance with the above-referenced regulation, the Department is

⁷ On April 26, 2011, the Department amended the antidumping duty order to include dusted shrimp, pursuant to the U.S. Court of International Trade (CIT) decision in *Ad Hoc Shrimp Trade Action Committee v. United States*, 703 F. Supp. 2d 1330 (CIT 2010) and the U.S. International Trade Commission determination, which found the domestic like product to include dusted shrimp. See *Certain Frozen Warmwater Shrimp from Brazil, India, the People's Republic of China, Thailand, and the Socialist Republic of Vietnam: Amended Antidumping Duty Orders in Accordance with Final Court Decision*, 76 FR 23277 (April 26, 2011); see also *Ad Hoc Shrimp Trade Action Committee v. initiating a CCR to determine whether Thai Union Group is the successor-in-interest to Thai Union Frozen. When it concludes that expedited action is warranted, the Department may publish the notice of initiation and preliminary results for a CCR concurrently.⁹ We determined that expediting this CCR is warranted because we have the information necessary to make a preliminary finding already on the record, in accordance with our practice.¹⁰

In determining whether one company is the successor-in-interest to another, the Department examines a number of factors including, but not limited to, changes in management, production facilities, supplier relationships, and customer base.¹¹ While no single factor or combination of these factors will necessarily provide a dispositive indication of a successor-in-interest relationship, the Department will generally consider the new company to be the successor to the previous company if the new company's resulting operation is not materially dissimilar to that of its predecessor.¹² Thus, if the evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the prior company, the Department will assign the new company the cash deposit rate of its predecessor.¹³

In its October 5 and October 21, 2015, submissions, Thai Union Group provided information to demonstrate

that it is the successor-in-interest to Thai Union Frozen. Thai Union Group states that the company's management, production facilities and customer/supplier relationships have not changed as a result of the corporate name change. To support its claims, Thai Union Group submitted the following documents: (1) Resolutions passed at a board of directors' meeting for the company as well as shareholder meeting minutes, demonstrating approval of the name change;¹⁴ (2) a letter announcing the company's name change to its customers and suppliers;¹⁵ (3) two affidavits, both dated September 2015, from the Thai Ministry of Commerce's Department of Business Development, certifying that the directors and other business information appearing in the Thai company register for Thai Union Group and Thai Union Frozen are identical;¹⁶ (4) a list showing the management of Thai Union Frozen before, and Thai Union Group after, the name change;¹⁷ (5) a list showing the Board of Directors of Thai Union Frozen before, and Thai Union Group after, the name change;¹⁸ (6) Thai Union Frozen's 2014 audited financial statements;¹⁹ (7) a list of the suppliers of Thai Union Frozen before, and Thai Union Group after, the name change;²⁰ and (8) a list of the customers of Thai Union Frozen before, and Thai Union Group after, the name change.²¹

Based on the evidence on the record, we preliminarily find that Thai Union Group is the successor-in-interest to Thai Union Frozen. We find that Thai Union Group operates as the same business entity as Thai Union Frozen and that its Board of Directors, management, production facilities, supplier relationships, and customers have not changed as a result of its name change. Thus, we preliminarily find that Thai Union Group should receive the same antidumping duty cash-deposit rate with respect to the subject merchandise as Thai Union Frozen, its predecessor company.²²

Should our final results remain the same as these preliminary results, we will instruct U.S. Customs and Border Protection to suspend entries of subject merchandise produced or exported by Thai Union Group at Thai Union Frozen's cash deposit rate, effective on the publication date of our final results.

We note that Thai Union Frozen is also a respondent in the current 2014–2015 administrative review of this antidumping duty order. See *Certain Frozen Warmwater Shrimp From India and Thailand: Notice of Initiation of Antidumping Duty Administrative Reviews*, 80 FR 16634 (March 30, 2015). SUPPLEMENTARY INFORMATION:

I. Abstract

The United States and Korea negotiated the U.S.-Korea Free Trade Agreement (the "Agreement") which was implemented into U.S. law pursuant to the United States-Korea Free Trade Agreement Implementation Act ("the Act"). Under the provisions of

the Act, textile and apparel goods must contain fibers, yarns, and fabrics produced in Korea or the United States to receive duty-free tariff treatment. The Agreement also provides for the establishment of a list of specific fibers, yarns, and fabrics that are not available in commercial quantities in a timely manner from producers in the United States. Articles containing these commercially unavailable fibers, yarns, and fabrics are also entitled to duty-free or preferential duty treatment despite not being produced in the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial availability provision of the Agreement and the Act. Under Section 202(o) of the Act ("the commercial availability provision"), interested entities from Korea or the United States have the right to request that a specific fiber, yarn, or fabric be added to, or removed from, the list of commercially unavailable fibers, yarns, and fabrics. This right becomes effective when the Agreement enters into force.

Section 202(o)(3)(F) of the Act requires that the President establish procedures for parties to follow when exercising the right to make these requests. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to the Committee for the Implementation of Textile Agreements (CITA), which issues procedures and acts on requests through the Office of Textiles and Apparel ("OTEXA").

The intent of these procedures is to foster the trade in U.S. and Korean textile and apparel articles by allowing non-originating fibers, yarns, and fabrics to be placed on or removed from a list of items not available in commercial quantities, on a timely basis, and in a manner that is consistent with normal business practice. To this end, these procedures are intended to facilitate the transmission, on a timely basis, of requests for commercial availability determinations and offers to supply the products that are the subject of the requests; have the market indicate the availability of the supply of the subject products; make available promptly, to interested entities and parties, information received regarding the requests for products and offers to supply; ensure wide participation by interested entities and parties; provide careful scrutiny of information provided to substantiate order requests and responses of offers to supply; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

For a fiber, yarn or fabric to be added to Appendix 4-B-1, an interested entity must submit to CITA a Request for a Commercial Availability Determination ("Request") which states that the subject product is not commercially available in the United States within a commercially reasonable timeframe (*i.e.*, timely). In support of its claim, the requestor must provide information to CITA regarding its attempts to source the subject product in the United States, and why it determined that the product is not available in a timely manner. Potential suppliers from the United States may submit a Response with an Offer to Supply ("Response"), asserting their capability and capacity to supply the subject product. These Responses must include information supporting the capability and capacity assertion. If the requestor disputes a responder's assertions, the requestor may submit a Rebuttal comment offering its contention, along with supporting information and documentation.

The information collected by CITA from Requests, Responses and Rebuttals will be used to determine whether the subject product is available in commercial quantities in a timely manner in the United States under the commercial availability provision of the Act. Requests, Responses, and Rebuttals must identify confidential information. Entities submitting confidential information in their Requests, Responses, or Rebuttals to CITA must submit both a public and a confidential version of their submissions. If the submissions are accepted, the public submissions or public versions of submissions will be posted on the dedicated commercial availability section of the Office of Textiles and Apparel (OTEXA)'s Web site. Business confidential information will not be shared with the public. Requestors and potential suppliers of the product named in the Request may use the public version as a basis for Responses and Rebuttals.

Each submission containing factual information for CITA's consideration must be accompanied by the appropriate certification regarding the accuracy of the factual information. With each electronic and original signed submission that contains factual information, an interested entity must file a certification of due diligence, attesting to the accuracy and authenticity of the submission. If the interested entity has legal counsel or other representative, the legal counsel or other representative must also file a certification of due diligence with each electronic and original signed submissions that contains factual
