BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Decisions on States' Applications for Relief From Tax Credit Reductions Provided Under Section 3302 of the Federal Unemployment Tax Act (FUTA) Applicable in 2015

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: Sections 3302(c)(2)(A) and 3302(d)(3) of the FUTA provide that employers in a State that has an outstanding balance of advances under Title XII of the Social Security Act at the beginning of January 1 of two or more consecutive years are subject to a reduction in credits otherwise available against the FUTA tax for the calendar year in which the most recent such January 1 occurs, if a balance of advances remains at the beginning of November 10 of that year. Further, section 3302(c)(2)(C) of FUTA provides for an additional credit reduction for a year if a State has outstanding advances on five or more consecutive January firsts and has a balance at the beginning of November 10 for such years. Section 3302(c)(2)(C) also provides for waiver of this additional credit reduction and substitution of the credit reduction provided in section 3302(c)(2)(B) if a state meets certain conditions.

The States of California, Connecticut, Indiana, Kentucky, New York, North Carolina, Ohio, South Carolina, and the Virgin Islands passed January 1, 2015, with outstanding Title XII advances and were potentially subject to FUTA credit reductions.

California, Indiana, Kentucky, Ohio, and the Virgin Islands applied for a waiver of the 2015 additional credit reduction under section 3302(c)(2)(C) of FUTA and it has been determined that each of these States met all of the criteria of that section necessary to qualify for the waiver of the additional credit reduction. Further, the additional credit reduction of section 3302(c)(2)(B) is zero for these States for 2015. Therefore, employers in these States will have no additional credit reduction applied for calendar year 2015.

Also, Section 3302(f) of FUTA provides that a State may apply for a cap in the reduction in credit for a year by meeting certain criteria. Kentucky applied for the cap of the 2015 credit reduction under this section. It has been determined that Kentucky met all of the criteria of section 3302(f) and thus qualifies for a cap on the credit reduction. Therefore, Kentucky employers would not be subject to an increase in FUTA credit reductions for calendar year 2015.

The States of Indiana, Kentucky, New York, North Carolina, and South Carolina repaid all of their outstanding advance balances before the beginning of November 10, 2015. Therefore, employers in those States will have no reduction in FUTA offset credit for calendar year 2015.

California, Ohio, and the Virgin Islands will have a credit reduction of 1.5%, and Connecticut will have a credit reduction of 2.1%, which is the 1.5% plus a 0.6% fifth year add-on amount for calendar year 2015.

Portia Wu,

Assistant Secretary for Employment and Training.

SUPPLEMENTARY INFORMATION:

I. Background

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in Section 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition. Each NRTL’s scope of recognition includes (1) the type of products the NRTL may test, with each type specified by its applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL’s scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification. OSHA maintains an informational Web site for each NRTL that details its scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

The Agency processes applications by an NRTL for renewals and expansions of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. II.C. OSHA processes applications for modifying the scope of recognition in accordance with 29 CFR 1910.7, App. IB4. In accordance with these procedures, NRTLs may submit an application to modify its scope of recognition at any time within its recognition period. For renewals, NRTLs must submit a request to OSHA, between nine months and one year before the expiration date of its current recognition. A renewal request includes an application for renewal and any additional information demonstrating its continued compliance with the terms of its recognition and 29 CFR 1910.7. If

OSHA did not conduct an on-site assessment of the NRTL’s headquarters and key sites within the past 18 to 24 months, the Agency will schedule the necessary on-site assessments prior to the expiration date of the NRTL’s recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal and QPS’s requested scope expansion in the **Federal Register** and solicits comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and announcing the Agency’s Final Decision on modifying an NRTL’s scope of recognition and on the renewal of the NRTL’s recognition.

II. Notice of Application for Expansion

The Occupational Safety and Health Administration is providing notice that QPS is applying for expansion of its current recognition as an NRTL. QPS requests the addition of seven test standards to its NRTL scope of recognition.

QPS currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: QPS Evaluation Services, Inc., 81 Kelfield Street, Unit 8, Toronto, Ontario, M9W 5A3.

III. General Background on the Application for Expansion

QPS submitted two applications, one dated July 16, 2014, and one dated June 9, 2015 (QPS Exhibit 14–1—Expansion Application for Six Standards OSHA–2010–0046 and QPS Exhibit 15–1—Amended Expansion Application to Add an Additional Standard OSHA–2010–0046), to expand its recognition to include seven additional test standards. These two applications were combined. OSHA staff performed a comparability analysis and reviewed other pertinent information. OSHA performed an on-site review in relation to these applications (as well as the application for renewal) on July 16–17, 2015.

Table 1 below lists the appropriate test standards found in QPS’s applications for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED APPROPRIATE TEST STANDARDS FOR INCLUSION IN QPS’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 48	Standard for Electric Signs.
UL 8750	Standard for Light Emitting Diode (LED) Equipment for Use in Lighting Products.
UL 73	Standard for Motor-Operated Appliances.

TABLE 1—PROPOSED APPROPRIATE TEST STANDARDS FOR INCLUSION IN QPS'S NRTL SCOPE OF RECOGNITION—Continued

Test standard	Test standard title
UL 1310	Standard for Class 2 Power Units.
UL 1598	Luminaries.
UL 1741	Standard for Inverters, Converters, Controllers and Interconnection System Equipment for Use with Distributed Energy Resources.
ANSI/ISA 12.12.01	Nonincendive Electrical Equipment for Use in Class I and II, Division 2 and Class III, Divisions 1 and 2 Hazardous (Classified) Locations.

IV. General Background on Application for Renewal

OSHA is additionally providing notice that QPS is applying for renewal of its current recognition as an NRTL. QPS initially received OSHA recognition as an NRTL on March 2, 2011 (76 FR 11518) for a five-year period expiring on March 2, 2016. QPS submitted a timely request for renewal, dated April 21, 2015 (Exhibit 2—Renewal Application, OSHA–2010–0046) and retains its recognition pending OSHA's final decision in this renewal process. The current address of QPS facilities recognized by OSHA and included as part of the renewal request are:

1. QPS Evaluation Services, Inc., 81 Kelfield Street, Unit 8, Toronto, Ontario, M9W 5A3 Canada.

V. Notice of Preliminary Findings of the Applications

QPS submitted acceptable applications for expansion of its scope of recognition. OSHA's review of the application file and on-site review indicate that QPS can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of the test standards for NRTL testing and certification noted in Table 1 above. This preliminary finding does not constitute an interim or temporary approval of QPS's applications.

This requested renewal covers QPS's existing NRTL scope of recognition. OSHA evaluated QPS's application for renewal, conducted an on-site review of QPS's facilities and preliminarily determined that QPS can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. This information includes OSHA's most recent on-site assessment of QPS's facilities conducted on July 16–17, 2015 (Toronto, Canada). The assessors found some nonconformances with the requirements of 29 CFR 1910.7. QPS addressed these issues sufficiently to meet the applicable NRTL requirements. This preliminary finding does not constitute an interim or temporary approval of the application.

OSHA welcomes public comment as to whether QPS meets the requirements of 29 CFR 1910.7 for expansion and renewal of its recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N–2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA–2010–0046.

OSHA staff will review all comments submitted to the docket in a timely manner and, after addressing the issues raised by these comments, will recommend whether to grant QPS's application for renewal and for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on November 23, 2015.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.
