

Assessment Policy Notice, we will instruct CBP to liquidate un-reviewed entries at the all-others rate established in the less-than-fair-value (LTFV) investigation, 2.40 percent,⁴ if there is no rate for the intermediate company(ies) involved in the transaction.⁵

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Nan Ya will be 0.00%, the rate established in the final results of this review; (2) for previously reviewed or investigated companies not covered in this review, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this or any previous review or in the original LTFV investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review or the investigation, the cash-deposit rate will continue to be the all-others rate of 2.40 percent, which is the all-others rate established by the Department in the LTFV investigation.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with

this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation, which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h).

SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a(e)(4) and (e)(11)) requires the Department to publish in the **Federal Register** this notice of a new system of records maintained by the Department. The Department's regulations implementing the Privacy Act are contained in part 5b of title 34 of the Code of Federal Regulations (CFR).

The Privacy Act applies to any record about an individual that is maintained in a system of records from which individually identifying information is retrieved by a unique identifier associated with each individual, such as a name or Social Security Number (SSN). The information about each individual is called a "record," and the system, whether manual or computer-based, is called a "system of records."

The Privacy Act requires each agency to publish a notice of a system of records in the **Federal Register** and to prepare and send a report to OMB whenever the agency publishes a new system of records or makes a significant

change to an established system of records. Each agency is also required to send copies of the report to the Chair of the Senate Committee on Homeland Security and Governmental Affairs and the Chair of the House Committee on Oversight and Government Reform. These reports are intended to permit an evaluation of the probable effect of the proposal on the privacy rights of individuals.

The system will contain personally identifying information on approximately 12,000 students, 500 teachers, and 104 principals from 104 schools in 12 school districts and will include, but will not necessarily be limited to, data on: (1) for students, standardized math and English/Language Arts test scores, age, sex, race/ethnicity, grade, eligibility for free/reduced-price lunches, English Learner status, individualized education plan status, school enrollment dates, attendance records, and discipline records, and (2) for principals and teachers, individual district identifiers, school assignments, grades and subjects taught, and principal and teacher background characteristics, including age, sex, race/ethnicity, certifications, degrees, years of teaching experience, scores on licensure or certification tests.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

The Department will maintain records on CD-ROM, and the contractor and sub-contractors will maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system will be indexed and retrieved by a unique number assigned to each individual that will be cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the site of the Department's contractor and sub-contractors, where this system of records will be maintained, will be controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis and controls individual users' ability to access and alter records within the system.

The contractor will establish similar procedures at its site to ensure confidentiality of data. The contractor is required to ensure that information identifying individuals is in files physically separated from other research data and electronic files identifying individuals are separated from other electronic research data files. The contractor will maintain security of all master data files and documentation. Access to individually identifiable data will be strictly controlled. All information will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry.

Physical security of electronic data will be also maintained. Security features that protect project data will include: password-protected accounts that authorize users to use the contractor's system but to access only specific network directories and

network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The Department's and the contractor's employees who "maintain" (collect, maintain, use, or disseminate) data in this system must comply with the requirements of the Privacy Act and the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules (GRS 23, Item 8).

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2015-0771; FRL-9939-41-OAR]

Protection of Stratospheric Ozone: Notice of Revocation of Certification for Refrigerant Reclaimers**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of revocation.

SUMMARY: In accordance with 40 CFR 82.164, no person may sell or offer for sale or use as a refrigerant, any class I or class II ozone-depleting substance consisting wholly or in part of used refrigerant unless the substance has been reclaimed by an Environmental Protection Agency (EPA)-certified refrigerant reclaimer. All persons reclaiming used refrigerant for sale to a new owner are required to certify to the EPA Administrator in accordance with 40 CFR 82.164 and to maintain records and submit reports in accordance with 40 CFR 82.166.

Through this action, the EPA is giving notice of the impending revocation of one refrigerant reclaimer, Refrigerants Exchange, Inc. (RefEx) of Irwindale, CA, in accordance with 40 CFR part 82, subpart F. In addition, the EPA is announcing the previous revocation of certification of eight refrigerant reclaimers. An up-to-date list of EPA-certified refrigerant reclaimers is available online at www.epa.gov/ozone/title6/608/reclamation/reclist.html.

DATES: If RefEx wishes to request a hearing for the impending revocation of its reclaimer certification, it must request a hearing in writing on or before January 4, 2016. If a written request and supporting data are not received by that date, RefEx's certification to reclaim refrigerants is revoked effective February 1, 2016.

SUPPLEMENTARY INFORMATION:**Impending Revocation**

On June 10, 2011, the EPA issued a request for information (June 10, 2011 Request or Request, available in the docket for this notice) to RefEx pursuant to Section 114 of the Clean Air Act (CAA). Section 114 of the CAA authorizes the EPA to request such information from anyone who is subject to any requirement of the CAA in order to determine the compliance status of that person or entity. RefEx is subject to regulations at 40 CFR 82.164 and 82.166 implementing section 608 of the Clean Air Act.

The June 10, 2011 Request asked, in part, for records documenting that reclaimed refrigerant sold by RefEx met the ARI 700 standard (upon which the *Specifications for Fluorocarbon and Other Refrigerants* in appendix A to 40 CFR part 82, subpart F are based), for the two-year period prior to RefEx's receipt of the request. RefEx responded to the Request in part on July 7, 2011. Records provided by RefEx in its response did not demonstrate that all refrigerant sold by RefEx in the relevant time frame was reprocessed to meet all of the applicable specifications in appendix A to 40 CFR part 82, subpart F. As part of its reclaimer certification, RefEx is required to verify that the reprocessed refrigerant meets all of the specifications in appendix A. See 40 CFR 82.164(b), (e)(3), and (g). In addition, among other things, the June 10, 2011 Request asked for the names and addresses of persons that sent RefEx material for reclamation in the 12 months prior to the Request. RefEx's July 7, 2011 response also did not provide that information. RefEx is required to keep this information under 40 CFR 82.164(e)(3) and 82.166(g).

EPA sent two follow-up letters (also available in the docket for this notice), dated August 19, 2011 and October 25, 2011, noting deficiencies in RefEx's July 7, 2011 response and requesting a full and complete response to the June 10, 2011 Request. Further, EPA offered RefEx the opportunity to provide any

additional documentation in response to the June 10, 2011 Request that EPA may use to determine RefEx's compliance with 40 CFR 82.164 and 82.166 in a letter dated March 16, 2015 (also available in the docket for this notice). To date, EPA has not received the requested information.

In the March 16, 2015 letter, the EPA warned that if RefEx did not provide additional information to demonstrate compliance with 40 CFR 82.164, EPA would consider initiating procedures to revoke RefEx's status as a certified reclaimer pursuant to 40 CFR 82.164(g) and 82.169. Since many of the letters sent to RefEx have been returned as undeliverable, in addition to the copy of the letter sent by certified mail, the EPA emailed the March 16, 2015 letter to the email address that RefEx uses to provide its annual report of the amount of refrigerant reclaimed on May 7, 2015. The last report was received by the EPA from this email address on March 24, 2015.

Since RefEx failed to fully respond to the information requests and has not shown that it is complying with 40 CFR 82.164 and 82.166, including particularly 40 CFR 82.164(b) and 82.166(g), the EPA is revoking RefEx's certification to reclaim refrigerants. Under 40 CFR 82.169, the EPA has the ability to revoke a reclaimer's certification for failing "to abide by any of the provisions of this subpart In such cases, the Administrator or her or his designated representative shall give notice of an impending suspension [or revocation] to the person or organization setting forth the facts or conduct that provide the basis for the revocation or suspension." See also 40 CFR 82.164(g) (providing that "[f]ailure to abide by any of the provisions of this subpart may result in revocation . . . of the certification of the reclaimer in accordance with 40 CFR 82.169" and including an analogous notice requirement).

If RefEx believes that its certification to reclaim refrigerants should not be revoked, it may request a hearing under 40 CFR 82.169 by filing a written request within 30 days of this notice to the individual identified in **FOR FURTHER INFORMATION CONTACT**. The request must include RefEx's objections to the revocation and data to support the objections. If the Agency does not receive a written request for a hearing within 30 days of the date of this notice, the revocation will become effective 60 days after the publication of this notice.

Notice of Previous Revocations

To ensure that all stakeholders are aware of past revocations, EPA is also
