

The Commission has determined that Navico has not proven a violation with respect to the '499 patent. The Commission has determined to adopt, on modified grounds, the ALJ's construction of the term "combining" (and its variants) recited in the asserted claims of the '499 patent. Under that construction, the Commission has determined that the asserted claims are not invalid and not infringed.

The Commission has determined the appropriate remedy is a limited exclusion order and a cease and desist order prohibiting Garmin from importing into the United States or selling or distributing within the United States certain marine sonar imaging devices, including downscan and sidescan devices, products containing the same, and components thereof that infringe the asserted claims of the '840 and '550 patents. The Commission has determined the public interest factors enumerated in section 337(d)(1) and (f)(1) do not preclude issuance of the limited exclusion order or cease and desist order.

Finally, the Commission has determined to apply a bond in the amount of 100 percent of the entered value of excluded products imported during the period of Presidential review (19 U.S.C. 1337(j)). The Commission's order and opinion were delivered to the President and to the United States Trade Representative on the day of their issuance.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: December 1, 2015.

Lisa R. Barton,

Secretary to the Commission.
