Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

---	--------------------------------------

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The proposed Project would construct a new 30,000 horsepower natural gas-fired compressor station with suction and discharge piping and ancillary equipment in Livingston County, Illinois.

Background

On July 9, 2015, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Chicago Market Expansion Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received a consultation letter from United States Department of Agriculture regarding impacts of farmland conversion.
