[Docket No. CP16–4–000]

Tennessee Gas Pipeline Company, L.L.C.; Supplemental Notice of Intent To Prepare an Environmental Assessment for the Proposed Orion Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Orion Project involving construction and operation of facilities by Tennessee Gas Pipeline Company, L.L.C. (TGP) in Wayne and Pike Counties, Pennsylvania. The Commission will use this EA in its decision-making process

to determine whether the project is in the public convenience and necessity.

This supplemental notice announces the extension of the scoping period and describes the process the Commission will use to gather input from the public and interested agencies on the project. The extension is to allow all recipients adequate time to submit comments on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before January 4, 2016.

If you sent comments on this project to the Commission before the opening of this docket on October 9, 2015, you will need to file those comments in Docket No. CP16–4–000 to ensure they are considered as part of this proceeding.

This supplemental notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

TGP provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).
