BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, Office of Vehicle Technologies, U.S. Department of Energy (DOE).

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy has submitted to the OMB for clearance, a proposal to extend for three years a collection of information pursuant to the Paperwork Reduction Act of 1995. The approved collection is being used for two Clean Cities programmatic efforts. The first is related to a scorecard that assists DOE's Clean Cities coalitions and stakeholders in assessing the level of readiness of their communities for plug-in electric vehicles (PEV). The second effort is intended to develop

information that enables DOE to measure the impact and progress of DOE's National Clean Fleets Partnership (Partnership). DOE is not proposing to expand the scope of these information collection efforts.

DATES: Comments regarding this proposed information collection must be received on or before January 11, 2016. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Written comments should be sent to:

Desk Officer for the Department of Energy, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503. And to Mr. Dennis Smith, Office of Energy Efficiency and Renewable Energy (EE-3V), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0121, or by fax at 202-586-1600, or by email at Dennis.Smith@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Dennis Smith at the address listed above in **ADDRESSES**.

SUPPLEMENTARY INFORMATION: The approved collection is being used for two Clean Cities programmatic efforts. The first is related to a scorecard that assists DOE's Clean Cities coalitions and stakeholders in assessing the level of readiness of their communities for plug-in electric vehicles (PEV). The second effort is intended to develop information that enables DOE to measure the impact and progress of DOE's National Clean Fleets Partnership (Partnership). DOE is not proposing to expand the scope of these information collection efforts.

This information collection request contains: (1) *OMB No.:* 1910-5171; (2) *Information Collection Request Title:* Clean Cities Vehicle Programs; (3) *Type of Review:* renewal; (4) *Purpose:* DOE's Clean Cities initiative has developed two voluntary mechanisms by which communities and certain fleets can get a better understanding of their readiness to deploy alternative fuel vehicles and their progress in doing so. The voluntary PEV Scorecard is intended to assist its coalitions and stakeholders in assessing the level of readiness of their communities for plug-in electric vehicles. The principal objective of the scorecard is to provide respondents with an objective assessment and estimate of their respective community's readiness for PEV deployment as well as understand the respective community's commitment to deploying these vehicles

successfully. DOE intends the scorecard to be completed by a city/county/regional sustainability or energy coordinator. As the intended respondent may not be aware of every aspect of local or regional PEV readiness, coordination among local stakeholders to gather appropriate information may be necessary.

DOE expects a total respondent population of approximately 1,250 respondents. Selecting the multiple choice answers in completing a scorecard questionnaire is expected to take under 30 minutes, although additional time of no more than 20 hours may be needed to assemble information necessary to be able to answer the questions, leading to a total burden of approximately 25,625 hours. Assembling information to update questionnaire answers in the future on a voluntary basis would be expected to take less time, on the order of 10 hours, as much of any necessary time and effort needed to research information would have been completed previously.

For the Clean Fleets Partnership information collection, the Partnership is targeted at large, private-sector fleets that own or have contractual control over at least 50 percent of their vehicles and have vehicles operating in multiple States. DOE expects approximately 50 fleets to participate in the Partnership and, as a result, DOE expects a total respondent population of approximately 50 respondents. Providing initial baseline information for each participating fleet, which occurs only once, is expected to take 60 minutes. Follow-up questions and clarifications for the purpose of ensuring accurate analyses are expected to take up to 90 minutes. The total burden is expected to be 125 hours.

The combined burden for the two information collections is 25,750 hours.

(5) *Type of Respondents:* Public; (6) *Annual Estimated Number of Respondents for both information collections:* 1,300; (7) *Annual Estimated Number of Total Responses:* 1,300; (7) *Annual Estimated Number of Burden Hours:* 25,750 (25,625 for PEV Scorecard, and 125 for Clean Fleets Partnership); and (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* There is no cost associated with reporting and recordkeeping.

Statutory Authority: 42 U.S.C. 13233; 42 U.S.C. 13252 (a)-(b); 42 U.S.C. 13255.

Issued in Washington, DC on: December 4, 2015.

David Howell,

Acting Director, Vehicle Technologies Office, Energy Efficiency and Renewable Energy.

[FR Doc. 2015-31257 Filed 12-10-15; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The proposed collection in support of the DOE's Small Business Vouchers (SBV) pilot will gather quantitative estimates of the pilot's impacts as well as capture implementation lessons learned. The information is needed to assess the impacts of the SBV Pilot, documenting that the investment is producing the expected results, and to determine ways to improve the pilot should it be expanded in scope.

The SBV Pilot is a funding mechanism structured to allow small businesses engaged in the renewable energy and energy efficiency sectors to collaborate with researchers at the DOE National Laboratories and to take advantage of the resources at the Labs that assist small businesses in proceeding through commercialization challenges. Respondents will include small businesses participating in the pilot as well a comparison group of businesses with Cooperative Research and Development Agreements (CRADA) outside of the SBV Pilot.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information

on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be received on or before February 9, 2016. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be emailed to: *Jeff.Dowd@ee.doe.gov* or mailed to Jeff Dowd, U.S. Department of Energy, EE-61P, 1000 Independence Ave. SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be emailed to: *Jeff.Dowd@ee.doe.gov*. Requests may also be mailed to Jeff Dowd, U.S. Department of Energy, EE-61P, 1000 Independence Ave. SW., Washington, DC 20585. Calls may be directed to Jeff Dowd at (202) 586-7258.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No. "New"; (2) Information Collection Request Title: Web-survey of Participating and Nonparticipating Small Businesses for DOE's Small Business Vouchers Pilot (3) Type of Request: New; (4) Purpose: To evaluate the effectiveness and impacts of DOE's Small Business Vouchers (SBV) pilot program, to capture lessons learned, and make recommendations; the information collection will be through a web based survey, allowing participating SBV firms and the comparison firms to answer questions at a time most convenient for them. The web survey will consist of two full-length surveys, conducted once after the first year of vouchers has been completed and once five years after the pilot began, and three abbreviated surveys in the interim years (years two, three and four). The first full-length survey (30 minutes in length for about 70 SBV participants and about 70 comparison firms) will stress questions about the application, selection, work agreement and completion processes and also ask about commercialization progress and other outcomes. The survey in year five (30 minutes in length) will ask about 300 firms participating in SBV from Years 1-4 and about 100 comparison firms about interest in continuing to engage with the national Laboratories, but concentrate on commercialization and other outcomes and how much the DOE program contributed to the outcomes. The abbreviated, interim-year surveys will be 15 minutes in length and will provide status updates on SBV pilot

impacts such as commercialization and other outcomes. The purpose of also surveying small business firms that have completed similar work through the existing CRADA process is to investigate similarities and differences in the two small business engagement programs. The data collected in the year five survey will also be used to perform a benefit-cost calculation and benchmark comparison of voucher firms to firms in the DOE Small Business Innovation Research (SBIR) program, based on existing SBIR data. (5) Annual Estimated Number of Respondents Year 1 Survey: 140; Year 5 Survey: 400; Year 2, 3 and 4 Survey: 300. (6) Annual Estimated Number of Total Responses: Year 1 Survey: 140; Year 5 Survey: 400; Year 2, 3 and 4 Survey: 300 (7) Annual Estimated Number of Burden Hours (Total): Year 1 Survey: 70; Year 5 Survey: 200; Year 2, 3 and 4 Survey: 75 (8) Annual Estimated Reporting and Recordkeeping Cost Burden: Year 1 Survey: \$0; Year 5 Survey: \$0; Year 2, 3 and 4 Survey: \$0.

Statutory Authority: DOE Org Act (42 U.S.C. 7101, *et seq.*) and 42 U.S.C. 16191 (AMO authority).

Issued in Washington, DC.

Joyce Yang,

EERE National Laboratory Impact Director, Office of Energy Efficiency and Renewable Energy, Department of Energy.
