(c) Developing guidelines for the utilization, as and when appropriate, of quality assurance systems to ensure that foodstuffs conform with requirements and to promote the recognition of these systems in facilitating trade in food products under bilateral/multilateral arrangements by countries;

(d) Developing guidelines and criteria with respect to format, declarations and language of such official certificates as countries may require with a view towards international harmonization;

(e) Making recommendations for information exchange in relation to food import/export control;
