**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 1010-0176.

*Title:* 30 CFR 585, Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf.

*Forms:* BOEM-0002, BOEM-0003, BOEM-0004, BOEM-0005, BOEM-0006.

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to issue leases, easements, or rights-of-way on the OCS for activities that produce or support production, transportation, or transmission of energy from sources other than oil and gas (renewable energy). Specifically, subsection 8(p) of the OCS Lands Act, as amended (43 U.S.C. 1337(p)), directs the Secretary of the Interior to issue any necessary regulations to carry out the OCS renewable energy program. The Secretary delegated this authority to the Bureau of Ocean Energy Management (BOEM). The BOEM has issued regulations for OCS renewable energy activities at 30 CFR part 585; this notice concerns the reporting and recordkeeping elements required by these regulations.

Respondents operate commercial and noncommercial technology projects that include installation, construction, operation and maintenance, and decommissioning of offshore facilities, as well as possible onshore support facilities. The BOEM must ensure that these activities and operations on the OCS are performed in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Therefore, BOEM needs information concerning the proposed activities, facilities, safety equipment, inspections and tests, and natural and manmade hazards near the site, as well as assurance of fiscal responsibility.

The BOEM uses forms to collect some information to ensure proper and efficient administration of OCS renewable energy leases and grants and

to document the financial responsibility of lessees and grantees. Forms BOEM-0002, BOEM-0003, BOEM-0004, and BOEM-0006 are used by renewable energy entities on the OCS to assign a lease interest, designate an operator, and to assign or relinquish a lease or grant. Form BOEM-0005 was designed to guarantee the performance of sureties with respect to bonds issued on behalf of OCS renewable energy lessees, grantees, and operators. The BOEM maintains the submitted forms as official lease and grant records pertaining to operating responsibilities, ownership, and financial responsibility.

We will protect information considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 585.113, addressing disclosure of data and information to be made available to the public and others. No items of a sensitive nature are collected. Responses are mandatory or required to obtain a benefit.

*Frequency:* On occasion or annually.

*Description of Respondents:* Companies interested in renewable energy-related uses on the OCS and holders of leases and grants under 30 CFR part 585.

*Estimated Reporting and Recordkeeping Hour Burden:* We estimate the burden for this information collection to be 25,688 hours. The following table details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

**Estimated Reporting and Recordkeeping Non-Hour Cost Burden:** We have identified three non-hour cost burdens for this collection totaling \$3,816,000 (refer to the table above). These non-hour cost burdens consist of service fees for BOEM document/study preparation, costs for paying a contractor instead of BOEM, and costs for a site-specific study and report to evaluate the cause of harm to natural resources.

**Public Disclosure Statement:** The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

**Comments:** We invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including

whether or not the information will have practical utility;

- The accuracy of our burden estimates;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden on respondents.

If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup costs or annual

operation, maintenance, and purchase of service costs. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (a) Before October 1, 1995; (b) to comply with requirements not associated with the information collection; (c) for reasons other than to provide information or keep records for the Government; or (d) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

**Public Availability of Comments:** Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Change in Discount Rate for Water Resources Planning

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of change.

**SUMMARY:** The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate for Federal water resources planning for fiscal year 2016 is 3.125 percent.

Discounting is to be used to convert future monetary values to present values.

**DATES:** This discount rate is to be used for the period October 1, 2015, through and including September 30, 2016.

**FOR FURTHER INFORMATION CONTACT:** Max Millstein, Bureau of Reclamation, Reclamation Law Administration Division, Denver, Colorado 80225; telephone: 303-445-2853.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 3.125 percent for fiscal year 2016.

This rate has been computed in accordance with Section 80(a), Public Law 93-251 (88 Stat. 34), and 18 CFR 704.39, which: (1) Specify that the rate will be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate will not be raised or lowered more than one-quarter of 1 percent for any year. The U.S. Department of the Treasury calculated the specified average to be 2.6511 percent. This rate, rounded to the nearest one-eighth percent, is 2.625 percent, which is a change of more than the allowable one-quarter of 1 percent. Therefore, the fiscal year 2016 rate is 3.125 percent.

The rate of 3.125 percent will be used by all Federal agencies in the formulation and evaluation of water and related land resources plans for the purpose of discounting future benefits and computing costs or otherwise converting benefits and costs to a common-time basis.

Dated: October 16, 2015.
