[Docket No. CP16-27-000]

Paulsboro Natural Gas Pipeline Company, LLC; Notice of Application

Take notice that on December 1, 2015, Paulsboro Natural Gas Pipeline Company, LLC (PNGPC), 800 Billingsport Road, Paulsboro, New Jersey 08066, filed an application in Docket No. CP16-27-000 under sections 7(b) and 7(c) of the Natural Gas Act (NGA), and part 157 of the Commission's regulations requesting authorization to relocate, replace, remove, in part, and abandon in place, in part, an approximately 2.4-mile, 6- and 8-inch diameter existing natural gas pipeline between Delaware County, Pennsylvania, and Gloucester County, New Jersey. PNGPC also requests a blanket certificate pursuant to part 157, subpart F, of the Commission's regulations, authorizing PNGPC to engage in certain self-implementing routine construction, operation and abandonment activities, as well as waivers of certain regulatory requirements, including the Commission's interstate pipeline open access, tariff, accounting, posting, and reporting requirements, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any questions regarding this application should be directed to Mark Wilgus, Senior Community Relations Specialist, Paulsboro Natural Gas Pipeline Company LLC, 800 Billingsport Road, Paulsboro, New Jersey 08066, or by calling (856) 224-4354 (telephone) or by email at mark.wilgus@pbfenergy.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or

issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 5 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's

environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). The licensee did not file a transfer application. The licensee did not file the requested information. By letter dated October 27, 2015, the Commission ordered the licensee to file a plan and schedule to resume project operations or a transfer application within 30 days, and failure to do so would result in termination of the project license by implied surrender. The licensee has not filed a response.
