

(\$29.00) for registration of anglers, spear fishers and for-hire fishing vessels to register under the National Saltwater Angler Registry Program.

DATES: The registration fee will be required effective January 1, 2016.

ADDRESSES: Gordon C. Colvin, NMFS ST-12453, 1315 East-West Highway, Silver Spring, MD 20910.

SUPPLEMENTARY INFORMATION: The final rule implementing the National Saltwater Angler Registry Program, 50 CFR 600, subpart P, was published in the **Federal Register** on December 30, 2008. The final rule states that persons registering with NMFS must pay an annual fee effective January 1, 2011, and that NMFS will publish the annual schedule for such fees in the **Federal Register**. The current annual fee for registration was set at \$25.00, effective August 1, 2013. NMFS policy requires that fees be reviewed every two years and be revised to reflect changes in estimated costs for administration of the program that requires the fees.

NMFS has completed its biennial review and has determined that the annual registration fee for anglers, spear fishers and for-hire fishing vessels will be raised to twenty-nine dollars (\$29.00). All persons registering on or after January 1, 2016, will be required to pay that registration fee, unless they are exempt as indigenous people per the provisions of 50 CFR 600.1410(f).

The Committee will review the National Marine Fisheries Service's (NMFS) assessment prioritization process and will discuss the concept of best scientific information available. The Committee will receive an update on SEDAR 43 Gray Triggerfish Projections from the Southeast Fisheries Science Center (SEFSC) and will make recommendations for a new rebuilding plan including the selection of a projected recruitment scenario, time to rebuild in the absence of fishing, determination of a maximum probability of overfishing (P*) when setting the allowable biological catch (ABC) and recommendations for the overfishing limit (OFL) and ABC. The Committee will discuss a constant catch vs. a constant fishing mortality rate (F) approach to setting catch limits with respect to stability of management; and will receive a projection from the Florida Fish and Wildlife Research Institute on constant catch overfishing limits (OFL) and acceptable biological catch (ABC) for west Florida shelf stock of hogfish. Next, the Committee will review the SEDAR 42 Red Grouper Benchmark Assessment. If the Committee accepts the assessment and sufficient information is available, the Committee will recommend overfishing limits (OFL) and acceptable biological catch (ABC) levels for constant F and constant catch for red grouper. The Committee will review an options paper

The Committee will review proposed revisions to the SEDAR process. The Committee will also review the terms of reference and project schedule for SEDAR 49—Gulf of Mexico Data-limited Species, and select appointees for the data, assessment and review groups. Lastly, the Committee will review the SSC meeting schedule for 2016; and will discuss other business, if any.

Marine Mammals; File No. 16109

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit amendment.

SUMMARY: Notice is hereby given that a major amendment to Permit No. 16109-02 has been issued to Versar, Inc. (formerly GeoMarine, Inc.) (Responsible Party: Susanne Bates), 700 International Parkway, Suite 104, Richardson, TX 75081.

ADDRESSES: The permit amendment and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

FOR FURTHER INFORMATION CONTACT: Rosa L. González or Carrie Hubbard, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On February 11, 2014, notice was published in the **Federal Register** (79 FR 8159) that a request for an amendment Permit No. 16109-01 to conduct research on sea turtles and marine mammals had been submitted by the above-named applicant. The requested permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*); the regulations governing the taking and importing of marine mammals (50 CFR part 216); the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*); and the regulations governing the

taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The amended permit (No. 16109-02), issued December 2, 2015, authorizes the following changes to the permit: (1) Extended the action area north and south to include all U.S. waters from Maine to Florida; (2) added aerial surveys to the research methods; (3) added takes for Blainville's beaked whales (*Mesoplodon densirostris*), false killer whales (*Pseudorca crassidens*), hawksbill (*Eretmochelys imbricata*), loggerhead (*Caretta caretta*), Kemp's ridley (*Lepidochelys kempii*), and green sea turtles (*Chelonia mydas*); (4) increased the number of marine mammals and sea turtles that could be harassed; and (5) changed the frequency of vessel based surveys from once per season to twice a month, year-round. The permit expires May 15, 2017.

An environmental assessment (EA) analyzing the effects of the permitted activities on the human environment was prepared in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on December 1, 2015.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: December 15, 2015.

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
