Title: Biometric Identity
OMB Number: 1651-0138

Abstract: In order to enhance national security, the Department of Homeland Security developed a biometric based entry and exit system capable of improving the information resources available to immigration and border management decision-makers. These biometrics include: digital fingerprint scans, photographs, facial images and iris images, or other biometric identifiers. Biometrics are collected from those aliens specified in 8 CFR 215.8 and 8 CFR 235.1(f). Non-exempt, non-U.S. citizens will have their facial and iris images captured upon entry to and exit from the United States. The information collected is used to provide assurance of identity and determine admissibility of those seeking entry into the United States.

The federal statutes that mandate DHS to create a biometric entry and exit system include: Section 2(a) of the Immigration and Naturalization Service Data Management Improvement Act of 2000 (DMIA), Public Law 106-215, 114 Stat. 337 (2000); Section 205 of the Visa Waiver Permanent Program Act of 2000, Public Law 106-396, 114 Stat. 1637, 1641 (2000); Section 414 of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT Act), Public Law 107-56, 115 Stat. 272, 353 (2001); Section 302 of the Enhanced Border Security and Visa Entry Reform Act of 2002 (Border Security Act), Public Law 107-173, 116 Stat. 543, 552, (2002); Section 7208 of the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA), Public Law 108-458, 118 Stat. 3638, 3817 (2004); and Section 711 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-52, 121 Stat. 266 (2007).

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we complete the CCP process for Whittlesey Creek National Wildlife Refuge, which we began by publishing a notice of intent in the **Federal Register** (78 FR 3909) on January 17, 2013. For more about the initial process and the history of this refuge, see that notice. We released the draft CCP and EA to the public,

announcing and requesting comments in a notice of availability (80 FR 15249) on March 23, 2015. The 30-day comment period ended on April 22, 2015. A summary of public comments and the agency responses is included in the final CCP.

Background

The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee) (Administration Act), requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the NWRS was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the NWRS mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge’s establishing purposes and the mission of the NWRS.

Additional Information

The final CCP may be found at <http://www.fws.gov/midwest/planning/whittleseycreek/index.html>. The final CCP includes detailed information about the planning process, refuge, issues, and management alternative selected. The Web site also includes an EA and FONSI, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 *et seq.*). The EA/FONSI includes discussion of four alternative Refuge management options.
