

I. Abstract

This request is for revision and extension of a current information collection.

The Coastal Zone Management Act of 1972, as amended (CZMA; 16 U.S.C. 1451 *et seq.*) requires that state coastal management programs and national estuarine research reserves developed pursuant to the CZMA and approved by the Secretary of Commerce be evaluated periodically. This request is for to collect information to accomplish those evaluations.

Section 1458 of the CZMA and implementing regulations at 15 CFR 923, Subpart L, require that state coastal management programs be evaluated concerning the extent to which the state has implemented and enforced the program approved by the Secretary, addressed the coastal management needs identified in 16 U.S.C. 1452(2)(A) through (K), and adhered to the terms of any grant, loan, or cooperative agreement funded under the CZMA. Section 1461(f) of the CZMA and implementing regulations at 15 CFR 921, Subpart E, require that national estuarine research reserves be evaluated with regard to their operation and management, including education and interpretive activities, the research being conducted within the reserve, and be evaluated in accordance with section 1458 of the CZMA and procedures set forth in 15 CFR 923.

NOAA's Office of Ocean and Coastal Resource Management (OCRM) conducts periodic evaluations of the 34 coastal management programs and 28 research reserves and produces written findings for each evaluation. OCRM has access to documents submitted in cooperative agreement applications, performance reports, and certain documentation required by the CZMA and implementing regulations. However, additional information from each coastal management program and research reserve, as well as information from the program and reserve partners and stakeholders with whom each works, is necessary to evaluate against statutory and regulatory requirements. Different information collection subsets are necessary for (1) coastal management programs, (2) their partners and stakeholders, (3) research reserves, and (4) their partners and stakeholders.

II. Method of Collection

Coastal program and reserve manager respondents will receive information requests/questionnaires via email, and submittals will be made via email. Partners and stakeholders of coastal management programs and of reserves

will receive a link to a web-based survey tool and respond through the survey tool.

As part of this submission, a few questions will be modified to clarify the information that should be provided as part of the information requests/questionnaires sent to the coastal program and reserve managers. The overall number of survey questions for the partners and stakeholders will be reduced.

Title: Rules Relating to Review of National Futures Association Decisions in Disciplinary, Membership Denial, Registration, and Member Responsibility Actions (OMB Control No. 3038-0043). This is a request for extension of a currently approved information collection.

Abstract: 17 CFR part 171 rules require a registered futures association to provide fair and orderly procedures for membership and disciplinary actions. The Commission’s review of decisions of registered futures associations in disciplinary, membership denial, registration, and member responsibility actions is governed by Section 17(h)(2) of the Commodity Exchange Act, 7 U.S.C. 21(h)(2). The rules establish procedures and standards for Commission review of such actions, and the reporting requirements included in the procedural rules are either directly required by Section 17 of the Act or are necessary to the type of appellate review role Congress intended the Commission to undertake when it adopted that provision.

Burden Statement: The respondent burden for this collection is estimated to

average 1 hour per response. This estimate includes the time needed to transmit decisions of disciplinary, membership denial, registration, and member responsibility actions to the Commission for review. The estimated burden of 1 hour is determined by the following:

Respondents/Affected Entities:

Individuals or entities filing appeals from disciplinary and membership decisions by National Futures Association.

Estimated number of respondents: 1.

Estimated total annual burden on respondents: 3 hours.

Frequency of collection: On occasion.

There are no capital costs or operating and maintenance costs associated with this collection.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: December 18, 2015.

Robert N. Sidman,

Deputy Secretary of the Commission.
