DEPARTMENT OF HEALTH AND HUMAN SERVICES

Announcement of Requirements and Registration for the "My Preparedness Story: Staying Healthy and Resilient" Video Challenge

AGENCY: Office of the Assistant Secretary for Preparedness and Response, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Office of the Assistant Secretary for Preparedness and Response (ASPR), located within the U.S. Department of Health and Human Services, announces the launch of the "My Preparedness Story: Staying Healthy and Resilient" Video Challenge. Natural disasters and other emergencies can happen anywhere and at any time. Taking action ahead of an emergency can help individuals, families, and communities fully prepare to prevent or minimize potential health impacts. Young people can help their family, friends, and community become stronger by protecting their health during disasters and every day. For example, some can do it by volunteering in a health center or with a local Medical Reserve Corps Unit, learning first aid skills, developing an emergency plan, preparing an emergency kit, or educating their family and friends about actions they can take to be healthy.

This contest invites young people between the ages of 14 and 23 to create a short video, 60 seconds or less, that answers the question, “How are you helping family, friends, and community to protect their health during disasters and every day?”

DATES: Challenge begins on January 4, 2016, and ends on March 28, 2016, 11 p.m. EST. ASPR staff will judge eligible submissions and select semifinalists April 4–8, 2016. The general public will rate the semifinalists’ videos April 11–22, 2016. The winners will be notified and announced no later than May 9, 2016. ASPR will announce timeline changes by amending this **Federal Register** notice.

The contest is subject to all applicable federal laws and regulations. Participation constitutes contestant’s full and unconditional agreement to these official rules, which are final and binding in all matters related to the contest. Eligibility for a prize award is contingent upon fulfilling all requirements set forth herein. An

Need and Use of Information Collection: This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6). The National Institute of Environmental Health Sciences (NIEHS) was given major responsibility for initiating a worker safety and health training program under Section 126 of the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting workers and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and

emergency responders has been developed. In twenty-eight years (FY 1987–2015), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained more than 3.3 million workers across the country and presented over 194,000 classroom and hands-on training courses, which have accounted for nearly 39 million contact hours of actual training. Generally, the grant will initially be for one year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4(a), (b), (c) and 65.6(a) on the nature, duration, and purpose of the training, selection criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint applications, the adequacy of training plans and resources, including budget and curriculum, and response to meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WTP Grantee Data Management System. The information collected is used by the Director through officers, employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 560.
