

baseline information on a national level needed to capture the points of view of both visitors and non-visitors to national parks.

We will pre-test the survey questions by conducting cognitive interviews of no more than 40 people in order to test and refine the final survey instrument. This will be a nationwide telephone survey using a dual sampling frame to include random-digit dial (RDD) land line and cell phone numbers. The survey will also include five to seven questions that will be used to evaluate youth engagement. Parental consent will be required before interviewing children/teens between the ages of 12 to 17.

The information obtained from this collection will serve as a benchmark to describe the breadth of uses and patterns of involvement with agency offerings beyond traditional park visits that will extend into the next century.

The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of melamine from China and Trinidad and Tobago were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and dumped within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)).
