Trade Monitoring Procedures for Fishery Products; International Trade in Seafood; Permit Requirements for Importers and Exporters

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to revise procedures and requirements for filing import, export, and re-export documentation for certain fishery products to meet requirements for the SAFE Port Act of 2006, the Magnuson-Stevens Fishery Conservation and Management Act (MSA), other applicable statutes, and obligations that arise from U.S. participation in regional fishery management organizations

(RFMOs) and other arrangements to which the United States is a member or contracting party. Specifically, NMFS proposes to integrate the collection of trade documentation within the government-wide International Trade Data System (ITDS) and require electronic information collection through the automated portal maintained by the Department of Homeland Security, Customs and Border Protection (CBP). Under this integration, NMFS would require annually renewable International Fisheries Trade Permits (IFTP) for the import, export, and re-export of certain regulated seafood commodities that are subject to trade monitoring programs of RFMOs and/or subject to trade documentation requirements under domestic law. These trade monitoring programs enable the United States to exclude products that do not meet the criteria for admissibility to U.S. markets, including products resulting from illegal, unregulated, and unreported (IUU) fishing activities. This proposed rule would consolidate existing international trade permits for regulated seafood products under the Antarctic Marine Living Resources (AMLR) and Highly Migratory Species International Trade Permit (HMS ITP) programs and expand the scope of the permit requirement to include regulated seafood products under the Tuna Tracking and Verification Program (TTVP). This proposed rule would also stipulate data and trade documentation for the above programs which must be provided electronically to CBP and address recordkeeping requirements for these programs in light of the proposed changes. Trade documentation excludes any programmatic documents that are not required at the time of entry/export (e.g., biweekly dealer reports).

DATES: Written comments must be received by February 29, 2016.
