Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart S).

Estimated number of respondents: 114 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 52,304 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,939,270 (per year), includes \$841,000 annualized capital or operation & maintenance costs.

Abstract: Owners and operators of wood building products surface coating facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 63, subpart A, as well as the specific requirements at 40 CFR part 63, subpart QQQQ. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Wood building products surface coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart QQQQ).

Estimated number of respondents: 232 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 75,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,880,000 (per year), includes \$278,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a small adjustment increase in the respondent and Agency labor hours in this ICR compared to the previous ICR. There is also a decrease in the total O&M costs. This is not due to program changes; rather, the changes occurred because we are rounding total values in this ICR to three significant figures.
