SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the project is to:

1. Reduce the threat of wildfire to communities in the wildland urban interface while moving toward a diverse fire-resilient ecosystem.
2. Reduce overstocked, drought-stressed and dying trees to promote forest health.
3. Enhance early seral foraging and winter range habitat for deer and wild turkeys; and improve long-term habitat for northern spotted owl.
4. Maintain or improve habitat for *Calochortus persistens*, a Forest Service sensitive plant.
5. Limit the discharge of sediment to streams from sediment legacy sites to improve water quality.

Proposed Action

The proposed action was designed to meet the purpose and need for the project. A total of 10,700 acres is being proposed for treatment within the 29,500-acre project area. Strategic actions within project boundary will treat about 250 acres of the 1,190-acre defense zone and 3,870 acres within the 12,350-acre threat zone around the community of Yreka, California. Proposed treatments also include about 1,450 acres of fuel breaks along strategic road systems and ridges; 4,160 acres of prescribed burning; 860 acres of mastication to enhance wildlife habitat while reducing hazardous fuels; 1,350

acres of thinning (without the removal of Forest products); and 2,880 acres of thinning (with removal of Forest products).

Responsible Official

Forest Supervisor, Klamath National Forest, 1711 South Main Street, Yreka, CA 96097.

Nature of Decision To Be Made

The responsible official will decide whether to adopt and implement the proposed action, an alternative to the proposed action, or take no action.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. During the comment period, an open house will be held in conjunction with the Yreka Area Fire Safe Council at the Forest Headquarters, 1711 South Main Street in Yreka on Wednesday, January 13, 2016, from 5 to 7 p.m. This is an opportunity to share location-specific information about the project with the public.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. We are particularly interested in hearing about any potential issues, which are defined as points of discussion, dispute, or debate about the effects of the proposed action. Your participation will help the interdisciplinary team develop effective, issue-driven alternatives and mitigations to the proposed action as needed.
