Registration Review; Draft Human Health and Ecological Risk Assessments; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's draft human health and ecological risk assessments for the registration review of a group of pesticides identified individually in this document in the table in Unit III, and opens a public comment period. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed a comprehensive draft human health and ecological risk assessment for the identified pesticides. After reviewing comments received during the public comment period on each assessment, EPA may issue revised risk assessments and explain any changes to the draft risk assessments, and respond to substantive comments on the risk assessments. EPA may also request public input on risk mitigation before completing a proposed registration review decision for the identified pesticides. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.
