Federal Energy Regulatory Commission

[Docket No. CP15–500–000]

Trans-Pecos Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Presidio Border Crossing Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an Environmental Assessment (EA) of the Presidio Border Crossing Project (Project) proposed by Trans-Pecos Pipeline, LLC (Trans-Pecos) in the above-referenced docket. Trans-Pecos requests authorization to construct,

operate, and maintain a new natural gas pipeline in Presidio County, Texas.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act of 1969. The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Presidio Border Crossing Project would involve construction of approximately 1,093 feet of FERC-jurisdictional 42-inch-diameter pipeline, installed beneath the Rio Grande River. The new pipeline would transport natural gas to a new delivery interconnect with pipeline facilities owned by an affiliate of Trans-Pecos at the United States-Mexico border for expanding electric generation and industrial market needs in Mexico.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the Project area. In addition, the EA is available for public viewing on the FERC’s Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are also available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502–8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are properly recorded and considered prior to a Commission decision on the proposal, it is important that the FERC receives your comments in Washington, DC on or before February 3, 2016.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number (CP15–500–000) with your submission. The Commission encourages electronic filing of comments and has dedicated eFiling expert staff available to assist you at 202–502–8258 or *efiling@ferc.gov*.
