[Project No. 14653-000]

Twain Resources, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On December 10, 2014, Twain Resources, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Easygo Hydroelectric Project (Easygo Project or project) to be located in an inactive underground mine adjacent to Morgan Creek near the City of Bishop, in Inyo County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An existing 12-foot-high by 12-foot-wide by 30-foot-thick reinforced concrete plug inside a 12,000-foot-long mine access tunnel capable of storing water up to 1,320 feet of gross head; (2) a 200-acre-foot in-mine reservoir that backs up water inside the mine to a maximum elevation of 9,400 feet above sea level; (3) a 24-inch or 18-inch steel penstock through the concrete plug connecting to a 1,500 kilowatt impulse turbine; (4) a 1.573 kilovolt-amp generator; (5) an approximately 2,500-foot-long transmission line connecting the generator to a California Edison-owned substation; and (6) appurtenant facilities. The estimated annual generation of the Easygo Project would be 5,600 megawatt-hours.
