

stock assessments and to meet NMFS' research objectives. On August 18, 2015, NMFS implemented Amendment 6 to the 2006 Consolidated HMS FMP (80 FR 50074) which, among other things, established a new base annual quota for the sandbar shark research fishery as 90.7 mt dw (199,943 lb dw). The shark research fishery gathers important scientific data and allows selected commercial fishermen the opportunity to earn more revenue from selling the sharks caught, including sandbar sharks. Only the commercial shark fishermen selected to participate in the shark research fishery are authorized to land/harvest sandbar sharks subject to the sandbar quota available each year. The selected shark research fishery participants also have access to the research large coastal shark, small coastal shark, and pelagic shark quotas subject to retention limits and quotas per §§ 635.24 and 635.27, respectively.

On November 4, 2015 (80 FR 68513), NMFS published a notice inviting qualified commercial shark directed and incidental permit holders to submit an application to participate in the 2016 shark research fishery. NMFS received 16 applications, of which 11 applicants were determined to meet all the qualifications. NMFS selected five qualified participants after considering how to meet research objectives in particular regions. NMFS expects to invite qualified commercial shark permit holders to submit an application for the 2017 shark research fishery later in 2016.

As with past years, the 2016 permit terms and permitted activities (e.g., number of hooks and retention limits) specifically authorized for selected participants in the shark research fishery were designated depending on the scientific and research needs of the Agency, as well as the number of NMFS-approved observers available. In order to inform selected participants of this year's specific permit requirements and ensure all terms and conditions of the permit are met, per the requirements of § 635.32 (f)(4), NMFS is holding a mandatory permit holder meeting via conference call.

Conference Call Date, Time, and Dial-in Number

The conference call will be held on January 15, 2016, from 2 to 4 p.m. (EST). Participants and interested parties should call 1-888-324-3180 and use the passcode 9803191. Selected participants who do not attend will not be allowed to participate in the shark research fishery. While the conference call is mandatory for selected

participants, other interested parties may call in and listen to the discussion. Selected participants are encouraged to invite their captain, crew, or anyone else who may assist them in meeting the terms and conditions of the shark research fishery permit.

Dated: January 11, 2016.
