I. Abstract

The NPS Common Learning Portal (CLP) will serve as a common location for advertising national, regional, and park specific training events to NPS employees. The CLP is focused on increasing the visibility of training available to NPS employees and is also making the site available to the public to allow NPS partners, retired NPS employees, and other interested persons not directly affiliated with the NPS access. The CLP also establishes communities of practice using interest groups and forums in order to increase communication among the NPS training community. The CLP includes an Ask the Expert feature where industry experts or retired NPS employees who are experts in their field can field questions from NPS employees. Individuals may visit the Common Learning Portal to learn about upcoming training events without providing any information. However, in order to participate in community forum discussions, an account on the site must be created. Registering for an account requires the user provide the following information for use in the community discussion forums:

- Name,
- Email address, and
- Username.

Once registered, the user has the opportunity to voluntarily provide additional information on their portal profile, to include:
