**SUPPLEMENTARY INFORMATION:** The  
Department of Education (ED), in  
accordance with the Paperwork  
Reduction Act of 1995 (PRA) (44 U.S.C.  
3506(c)(2)(A)), provides the general  
public and Federal agencies with an  
opportunity to comment on proposed,  
revised, and continuing collections of  
information. This helps the Department  
assess the impact of its information  
collection requirements and minimize  
the public’s reporting burden. It also  
helps the public understand the  
Department’s information collection  
requirements and provide the requested  
data in the desired format. ED is  
soliciting comments on the proposed  
information collection request (ICR) that  
is described below. The Department of  
Education is especially interested in  
public comment addressing the  
following issues: (1) Is this collection

necessary to the proper functions of the  
Department; (2) will this information be  
processed and used in a timely manner;  
(3) is the estimate of burden accurate;  
(4) how might the Department enhance  
the quality, utility, and clarity of the  
information to be collected; and (5) how  
might the Department minimize the  
burden of this collection on the  
respondents, including through the use  
of information technology. Please note  
that written comments received in  
response to this notice will be  
considered public records.

*Title of Collection:* Parent Information  
and School Choice Evaluation.

*OMB Control Number:* 1850-NEW.

*Type of Review:* A new information  
collection.

*Respondents/Affected Public:*  
Individuals or Households.

*Total Estimated Number of Annual  
Responses:* 3,525.

*Total Estimated Number of Annual  
Burden Hours:* 2,306.

*Abstract:* Sponsored by the Institute  
of Education Sciences (IES), U.S.  
Department of Education, the Parent  
Information and School Choice  
Evaluation (PISCE) is an important first  
step toward filling the wide gap in  
knowledge about how to present school  
choice information to parents. This  
research is needed to provide guidance  
to districts where school choice is  
expanding. PISCE seeks to identify the  
format, amount, and organization of  
information that is most comprehensible  
and usable to parents. The study will  
target low-income parents of school-age  
children and will evaluate perceptions  
of different presentations of school  
information. The results of the study  
will be used to create a reader-friendly  
guide for school districts.

IES has contracted with Mathematica  
Policy Research to conduct the needed  
research. Most of the experiment will be  
conducted with members of a standing  
panel who already complete surveys on  
a regular basis for a variety of purposes.  
This approach provides a low-cost and  
quick turnaround method to obtain  
findings related to the understandability  
of school choice information, which  
does not require respondents to be  
making actual school choices for their  
children. To enhance what can be  
learned from the standing panel, the  
research team also intends to recruit a  
sample of low-income parents of school-  
age children from locations where a  
public school choice marketplace with  
unified enrollment has been active for at  
least two years. Parents who have  
experienced public school choice or are  
at least exposed to open enrollment in  
their district may experience the  
experiment differently than the standing

panel members, for whom considering schools other than one's default neighborhood school may be unfamiliar. This augmented sample of, presumably, less survey-savvy low-income parents will be used to provide a sensitivity check of the findings based on the standing panel alone.
