DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP16–18–000]

Magnum Gas Storage, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Magnum Gas Storage Amendment Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Magnum Gas Storage Amendment Project (Project) involving construction and operation of facilities by Magnum Gas Storage, LLC (Magnum) in Millard, Juab, and Utah Counties, Utah. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity. The proposed Project is an Amendment to the Certificate of Public Convenience and Necessity (Certificate) issued on March 17, 2011 in Docket No. CP10–22–000 to Magnum. The Certificate authorized Magnum to construct, own, and operate a natural gas storage facility in Millard, Juab, and Utah Counties Utah, with related facilities including a 61.6 mile long, 36-inch diameter natural gas header pipeline (Header).

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before February 16, 2016.

If you sent comments on this project to the Commission before the opening of this docket on November 16, 2015, you will need to file those comments in Docket No. CP16–18–000 to ensure they
