AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the public comment period on our September 2, 2003, proposed rule to remove the scarlet-chested parakeet (*Neophema splendida*) and the turquoise parakeet (*Neophema pulchella*) from the List (List) of Endangered and Threatened Wildlife under the Endangered Species Act of 1973, as amended. We are taking this action to determine whether removing these species from the List is still warranted, and to ensure we get the best scientific and commercial information available.

DATES: We will consider comments received or postmarked on or before February 22, 2016. Comments submitted

electronically using the Federal eRulemaking Portal (see **ADDRESSES** section, below) must be received by 11:59 p.m. Eastern Time on the closing date.

SUPPLEMENTARY INFORMATION:

Background

In our September 2, 2003 proposed rule (68 FR 52169), we proposed to remove the scarlet-chested parakeet (*Neophema splendida*) and the turquoise parakeet (*Neophema*

pulchella) from the List of Endangered and Threatened Wildlife under the Act, because the endangered designation no longer correctly reflected the current conservation status of these birds. Our review of the status of the species at the time showed that the wild populations of these species were stable and increasing, with more than 20,000 breeding-age turquoise parakeets and 10,000 breeding-age scarlet-chested parakeets found throughout their range. Furthermore, trade in wild caught specimens was strictly limited, and the species' were protected through domestic regulation within the range country (Australia), as well as through additional national and international treaties and laws. Currently, the Act prohibits the import, export and interstate and foreign commerce of these species, unless the individual can prove that the otherwise prohibited act enhances the propagation or survival of the species, or it is for scientific research. Removal of these species from the List means that the protections of the Act will no longer apply. However, protections under the Convention on International Trade of Endangered Fauna and Flora the Lacey Act and the Wild Bird Conservation Act (for wild-caught specimens only) would remain unchanged.

For more information on previous Federal actions concerning the scarlet-chested and turquoise parakeet, or information regarding the species' biology, status, distribution, and habitat, refer to the proposed rule published in the **Federal Register** on September 2, 2003 (68 FR 52169), which is available online at <http://www.gpo.gov/fdsys/granule/FR-2003-09-02/03-22225>, or by mail from the U.S. Fish and Wildlife Service in Falls Church, VA (see **FOR FURTHER INFORMATION CONTACT**).

Public Comments

We will accept written comments and information during this reopened comment period on our proposal to remove the scarlet-chested parakeet (*Neophema splendida*) and the turquoise parakeet (*Neophema pulchella*) from the List. We will consider information and recommendations from all interested parties. We intend that any final action resulting from the proposal be as accurate as possible and based on the best available scientific and commercial data.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. We will post all hardcopy comments on <http://www.regulations.gov> as well. However, we cannot guarantee that we will be able to do so.

Fisheries of the Exclusive Economic Zone Off Alaska; Western Alaska Community Development Quota Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of fishery management plan amendment; request for comments.

SUMMARY: The North Pacific Fishery Management Council (Council) has submitted Amendment 109 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) to the Secretary of Commerce (Secretary) for review. If approved, Amendment 109 would amend the FMP to support increased participation in local small-scale groundfish fisheries managed under the Western Alaska Community Development Quota (CDQ) Program. Specifically, Amendment 109 would amend the description of observer coverage requirements in the FMP to allow catcher vessels less than or equal to 46 feet (ft) (14.0 meters (m)) length overall (LOA) using hook-and-line gear to be placed in the partial observer coverage category when groundfish CDQ fishing. In addition, Amendment 109 would exempt operators of registered catcher vessels greater than 32 ft (9.8 m) LOA and less than or equal to 46 ft LOA using hook-and-line gear from the requirement to obtain and carry a License Limitation Program (LLP) license when conducting groundfish CDQ fishing. Amendment 109 also would update descriptive information about the CDQ Program in the FMP and make several editorial revisions. The objective of Amendment 109 is to facilitate increased participation by residents of CDQ communities in the groundfish CDQ fisheries in the Bering Sea and Aleutian Islands Management Area (BSAI), and to support economic development in western Alaska. This action would benefit the six CDQ groups and the operators of local small hook-and-line catcher vessels that the CDQ groups authorize to participate in the groundfish CDQ fisheries by reducing the costs of participating in those fisheries.
