

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by its applicable test standard, and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition and for

an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL, including QPS, which details the NRTL's scope of recognition. These pages are available from the OSHA Web site at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

QPS currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: QPS Evaluation Services, Inc. 81 Kelfield Street, Unit 8, Toronto,

Ontario, M9W 5A3, Canada. A complete list of QPS's scope of recognition is available at <https://www.osha.gov/dts/otpca/nrtl/qps.html>.

II. General Background on the Application

QPS submitted an application, dated July 28, 2014 (OSHA-2010-0046-0005), to expand its recognition to include one additional test standard. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA performed an on-site review in relation to this application on July 16-17, 2015.

Table 1 below lists the appropriate test standard found in QPS's application for expansion for testing and certification of products under the NRTL Program.

Test standard	Test standard title
ANSI/AAMI ES 60601-1: 2005/ (R)2012.	Medical Electrical Equipment—Part 1: General Requirements for Basic Safety and Essential Performance.

III. Preliminary Findings on the Application

QPS submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and pertinent documentation, indicate that QPS can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of this one test standard for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of QPS's application.

OSHA welcomes public comment as to whether QPS meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N-2625,

Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2010-0046.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant QPS's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that TUV SUD America, Inc. (TUVAM), is applying for expansion of its current recognition as an NRTL. TUVAM requests the addition of one test standard to its NRTL scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified

by its applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL, including TUVAM, which details the NRTL's scope of recognition. These pages are available from the OSHA Web site at <http://www.osha.gov/dts/otpcanrtl/index.html>.

TUVAM currently has three facilities (sites) recognized by OSHA for product testing and certification, with its headquarters located at: TUV SUD America, Inc., 10 Centennial Drive, Peabody, MA 01960. A complete list of TUVAM's scope of recognition is available at <https://www.osha.gov/dts/otpcanrtl/tuvam.html>.

II. General Background on the Application

TUVAM submitted an application, dated August 10, 2015 (Exhibit 15-1, Application for One Test Standard Expansion, OSHA-2007-0043), to expand its recognition to include one additional test standard. OSHA staff performed detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1 below lists the appropriate test standard found in TUVAM's application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED APPROPRIATE TEST STANDARD FOR INCLUSION IN TUVAM'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 62368-1	Audio/Video, information and communication technology equipment—Part 1: Safety Requirements.

III. Preliminary Findings on the Application

TUVAM submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file indicates that TUVAM can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of this one test standard for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of TUVAM's application.

OSHA welcomes public comment as to whether TUVAM meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0043.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant TUVAM's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.
