SUPPLEMENTARY INFORMATION: Proposed revisions to the FGDC-endorsed United States Thoroughfare, Landmark and Postal Data Standard may be categorized as follows:

1. Corrections to typographic and minor grammatical errors, which include misspellings, missing words, etc., in all sections and minor corrections to the .XSD definitional document (for XML data exchange) and SQL code examples found in Part 4: Address Data Quality, Part 5: Data Exchange, and the appendices.

2. Updating of all links and references (URLs, etc.) throughout the Standard to reflect newer versions of other standards, reference documents, etc.

3. A proposal from the U.S. Census Bureau to add a MapPosition element to Part 2: Data Content, to describe the position of an address point.

MapPosition allows multiple coordinate positions to be associated with an address. It is a repeatable element consisting of the coordinates of the map representation of an address with a description of the position. Such descriptions could be "Front Door", "Parcel Centroid", "Building Centroid",

and "Driveway," amongst others. The MapPosition proposal may be downloaded from <https://www.fgdc.gov/standards/projects/FGDC-standards-projects/street-address/MapPositionProposal>.

Comments that concern specific issues/changes/additions may result in changes to the Address Data Standard. After FGDC endorsement of the revisions to the Address Data Standard, the updated Address Data Standard and a change log will be made available to the public on the FGDC Web site, www.fgdc.gov. This log identifies the location of the change, the existing language, the change that is made, and an explanation of the change itself. Reviewers may obtain information about how comments were addressed upon request.

Federal agencies that make up the FGDC develop the NSDI in cooperation with organizations from State, local and tribal governments, the academic community, and the private sector. The authority for the FGDC is OMB Circular No. A-16 Revised on Coordination of Geographic Information and Related Spatial Data Activities (Revised August 19, 2002).
