#### Energy Conservation Program for Consumer Products: Energy Conservation Standards for Residential Boilers; Correction

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Final rule; technical correction.

**SUMMARY:** On January 15, 2016, the U.S. Department of Energy (DOE) published a final rule in the **Federal Register** that amended the energy conservation standards for residential boilers (81 FR 2319). Due to a drafting error, that document recited an ambiguous/erroneous date for compliance with the amended standards at one place in the final rule's preamble. However, the compliance date was correctly provided in the **DATES** section, as well as the regulatory text. Nevertheless, in order to prevent any confusion, this final rule corrects this error.

**DATES:** *Effective Date:* January 27, 2016.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On January 15, 2016, DOE's Office of Energy Efficiency and Renewable Energy published a final rule in the **Federal Register** titled, "Energy Conservation Standards for Residential Boilers" (hereafter referred to as the "January 2016 final rule"). 81 FR 2319. Since the publication of that final rule, it has come to DOE's attention that, due to a technical oversight, a certain part of the January 2016 final rule incorrectly recites the compliance date for the amended standards for residential boilers. Specifically in the third column of page 2321, the final rule states, "These standards apply to all residential boilers listed in Table I.1 and Table I.2 and manufactured in, or imported into,
