

Background

On July 22, 2015, the Department published the *Preliminary Results* of this administrative review.² On November 17, 2015, we extended the final results to January 18, 2016.³ No party submitted comments on the *Preliminary Results*.

Final Results of Review

A. Takayasu

As noted in the *Preliminary Results*, Takayasu submitted a no-shipment letter which stated that it only had one entry of subject merchandise during the POR, which was a sample sale.⁴ For these final results, because the record contains no evidence to the contrary, we continue to find Takayasu's single entry constitutes a sample shipment that lacked consideration, and thus Takayasu did not have any reviewable transactions during the POR.

Consistent with the Department's assessment practice in non-market economy ("NME") cases,⁵ where a respondent has no entries during the period of review, it is appropriate not to rescind the review in part in this circumstance but, rather, to complete the review with respect to that respondent and issue appropriate instructions to CBP based on the final results of the review.⁶ Accordingly, the Department has completed the review with respect to Takayasu and will issue appropriate instructions to CBP based on the final results of the review.⁷ For the final results, we will instruct CBP to

liquidate Takayasu's sample entry without regard to antidumping duties.

B. Zhaoqing Tifo

As noted in the *Preliminary Results*, Zhaoqing Tifo did not respond to the antidumping duty questionnaire and failed to establish its eligibility for a separate rate.⁸ As such, consistent with the Department's practice regarding conditional review of the PRC-wide entity,⁹ we determine that Zhaoqing Tifo remains part of the PRC-wide entity. Under this practice, the PRC-wide entity will not be under review unless a party specifically requests, or the Department self-initiates, a review of the entity. Because no party requested a review of the PRC-wide entity, the entity is not under review and the entity's rate is not subject to change. Therefore, for the final results, we will instruct CBP to liquidate Zhaoqing Tifo's entries at the rate previously established for the PRC-wide entity, 44.30 percent.

Assessment Rates

Because Takayasu was found to have no reviewable transactions, and because Zhaoqing Tifo did not respond to the antidumping duty questionnaire, and is thus a part of the PRC-wide entity, we have not calculated any assessment (or cash deposit) rates in this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this review for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the "Act"): (1) For previously investigated or reviewed PRC and non-PRC exporters that received a separate rate in a prior completed segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (2) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the PRC-wide entity, which is 44.30 percent; and (3) for all non-PRC

exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter.

These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

These final results are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

NOAA Commercial Space Policy

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of the NOAA Commercial Space Policy.

SUMMARY: NOAA has released the final NOAA Commercial Space Policy (Policy). On September 1, 2015, NOAA released a draft Commercial Space Policy for a 30-day public comment period. During this comment period, 15 sets of comments were received (see [www.regulations.gov/#!/docketDetail;D=NOAA-NMFS-2015-](http://www.regulations.gov/)

0109). All comments were reviewed, adjudicated and, where appropriate, incorporated or reflected in the final Policy.

(Phone: 202-482-3193, troy.wilds@noaa.gov).

SUPPLEMENTARY INFORMATION:

Background

NOAA's Commercial Space Policy sets a broad framework for use of commercial space-based approaches by the agency to meet its observational requirements. Changes in the commercial space services arena are happening rapidly, yielding new technical and business approaches to building, launching, and operating satellites, and selling private satellite capabilities as services. NOAA is interested in exploring these emerging commercial capabilities to better understand how they might complement the agency's current offerings.

The draft policy was published on September 1, 2015 (80 FR 52745). The final policy establishes critical components for improved engagement with the commercial sector: Designating the Office of Space Commerce as a single point of entry for commercial providers thereby streamlining the process for easier engagement; establishes an open and transparent marketplace; defines guiding principles, implementation considerations, and strategic planning for potential commercial data buys; and establishes the possibility of demonstration projects, where appropriate, to test and evaluate new potential data sources, and provides an avenue to operational commercial data buys.

As demand for information about the changing state of our planet grows,

NOAA strives to support and grow an observing enterprise that is flexible, responsive to evolving technologies, and economically sustainable. This policy will allow NOAA to seek solutions that meet these needs while also supporting and upholding the international data sharing commitments upon which we depend for global data and data products.
