**SUPPLEMENTARY INFORMATION:** An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on December 3, 2015 (80 FR 75663).

*Title:* Daily Trade and Supporting Data Reports (OMB Control No. 3038–0061). This is a request for extension of a currently approved information collection.

*Abstract:* Commission Regulation 16.02 requires Reporting Markets, including Designated Contract Markets, to provide the Commission with trade and supporting data reports on a daily basis. The Commission analyzes the daily trade and supporting data reports to discharge its regulatory responsibilities, including the responsibilities to prevent market manipulations and commodity price distortions and ensure the financial integrity of its jurisdictional markets.

This ICR concerns the collections of information required by 17 CFR 16.02. Commission staff estimates that up to 30 reporting markets could provide this data to the Commission in the future. The Commission did not receive any comments regarding the burden estimate or any other aspect of this ICR.

*Burden Statement:* Commission staff estimate that the total annual time burden for this ICR is 15,000 hours. Commission staff estimates that the total annual cost for this ICR is \$1,139,700. The time burden estimate represents the annual burden that Reporting Markets incur to operate and maintain automated reporting systems and processes that facilitate the reporting of trade and supporting data reports to the Commission on a daily basis. The electronic reporting required by Commission Rule 16.02 is generally accomplished in an automated manner by respondents' computer systems. Reporting entities have already incurred significant one-time costs to establish the capability to electronically report trade and supporting data to the Commission on a daily basis. The burden hours currently incurred by respondents to comply with Commission Rule 16.02 are primarily related to the hours necessary to oversee, maintain, and utilize respondents' existing automated reporting functionality.

Commission staff estimates that Reporting Markets expend an average of

two hours per trading day to oversee, maintain, and utilize their systems and processes to comply with Commission Rule 16.02. Commission staff calculated the estimated cost burden by multiplying the estimated time burden by an estimated appropriate hourly wage rate of \$75.98. Commission staff derived the estimated appropriate hourly wage rate by averaging the salaries and bonuses of relevant professions reported in the SIFMA Report on Management & Professional Earnings in the Securities Industry 2013.

*Respondents/Affected Entities:* Reporting Markets.

*Estimated Number of Respondents:* 30.

*Estimated Total Annual Burden on Respondents:* 15,000 hours.

*Estimated Total Annual Cost:* \$1,139,700.

*Frequency of Collection:* Ongoing.

*Authority:* 44 U.S.C. 3501 *et seq.*

Dated: January 27, 2016.

**SUMMARY:** In accordance with the requirements of the Paperwork Reduction Act (“PRA”) of 1995 (44 U.S.C. chapter 35), the Consumer Product Safety Commission (“Commission” or “CPSC”) announces that the Commission has submitted to the Office of Management and Budget (“OMB”) a request for extension of approval of a collection of information relating to certain children’s articles known as baby-bouncers and walker-jumpers, approved previously under OMB Control No. 3041–0019. In the **Federal Register** of October 26, 2015 (80 FR 65218), the CPSC published a notice to announce the agency’s intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of that collection of information, without change.

**DATES:** Written comments on this request for extension of approval of information collection requirements should be submitted by March 3, 2016.

**ADDRESSES:** Submit comments about this request by email: [OIRA\\_submission@omb.eop.gov](mailto:OIRA_submission@omb.eop.gov) or fax: 202–395–6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503. **SUPPLEMENTARY INFORMATION:** CPSC has submitted the following currently approved collection of information to OMB for extension:

*Title:* Ban of Certain Articles Known as Baby-Bouncers or Walker-Jumpers.

*OMB Number:* 3041–0019.

*Type of Review:* Renewal of collection.

*Frequency of Response:* On occasion.

*Affected Public:* Manufacturers and importers of baby-bouncers or walker-jumpers.

*Estimated Number of Respondents:* 33 firms that supply baby-bouncers or walker-jumpers to the United States market have been identified; there are approximately 4 new models per firm annually.

*Estimated Time per Response:* 30 minutes/model associated with labeling requirements and 1 hour/model associated with recordkeeping requirements.

*Total Estimated Annual Burden:* 132 hours on recordkeeping (33 firms × 1 hour × 4 models) and 66 hours for labeling (33 firms × ½ hour × 4 models) for a total annual burden of 198 hours per year.

**General Description of Collection:** Under 16 CFR 1500.18(a)(6), certain articles known as “baby-bouncers” and “walker-jumpers” that are intended to support very young children while sitting, bouncing, jumping, and/or reclining, are banned if they are designed in such a way that exposed parts present hazards, such as amputation, crushing, laceration, fracture, hematoma, bruise, or other injury to fingers, toes, or other parts of the anatomy of young children. An exemption from the ban is provided at 16 CFR 1500.86(a)(4) if the products are designed to guard against or prevent those same injuries. Among other requirements, the regulations require manufacturers, including importers, to meet the collection of information requirements for labeling and recordkeeping requirements.

Products that are the subject of this information collection are distinguishable from the infant bouncer seats that are the subject of the Commission’s recent proposed safety standard on infant bouncer seats at 80 FR 63168 (Oct. 19, 2015). Infant bouncer seats described in the Commission’s proposed standard are intended to hold young infants that cannot sit up unassisted in a reclined position (approximately 0 to 6 months of age). The products subject to this information collection are typically described as doorway jumpers, and allow the child to jump in place. Such products are intended for use with children that are beginning to develop leg strength to aid in learning to walk.

Dated: January 27, 2016.
