Comments: On 9/29/2015 we published a **Federal Register** notice (80 FR 58499) announcing that we would submit this ICR to OMB for approval and soliciting comments. The comment period closed on [December 1, 2015]. We received one comment. The comment did not directly relate to this collection, but rather is a negative response to the capture and marking of birds in general and other actions related to bird management. There were no direct comments about any of the data collection forms so the comment appears to be irrelevant to this process.

III. Request for Comments

We again invite comments concerning this ICR as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time.
